The Indy Area Alumni Association becomes reality

For several years, alumni in and around Indianapolis have been suggesting the formation of an ICU Indy Area Alumni Association. An advisory committee has been formed and has established a regular format for meetings.

All alumni and friends of ICU in the Indy area are invited to join us for our 7:30 a.m. buffet breakfasts in the Schwitzer Center Dining Hall, followed each time by an outstanding speaker from 8-8:30 a.m. Cost of the breakfast is $4, and reservations are suggested; just call the Alumni Office at 788-3295.

Our kickoff breakfast program will be on Thursday morning, May 23, featuring Mr. Don Tanselle, a member of the ICU Board of Trustees and Vice Chairman of Merchants National Bank and Trust Company. Mr. Tanselle will be speaking about his involvement in the Mideast negotiations with special U.S. Consul Leon Charney.

The purpose of this organization is to bring alumni of various disciplines and interests together on campus to enjoy the fellowship of other alumni, faculty, and staff of ICU, and to hear an interesting and enlightening presentation by an outstanding speaker. There are no association dues, membership requirements or commitments. We simply want your attendance and enjoyment as a member of our local association.

Call 788-3295 for your reservation to our kickoff breakfast program on Thursday, May 23 at 7:30 a.m., featuring Mr. Don Tanselle. You may pay for your breakfast at the door. ☐

Alumni Scholar
competition tough
The Office of Alumni Relations is pleased to announce that 46 students have been named Alumni Scholars for the 1985-86 school year, after being recommended by an ICU alumnus.

Dr. Mary Busch was a general session speaker for the 22nd Annual Conference on Critical Issues in Education at Central State University in Edmond, Oklahoma.

Dr. Ed Vondrak was elected to the position of chairman-elect of the physics section of the Indiana Academy of Science.

Charles Guthrie was guest lecturer at St. Joseph's College on two occasions in January. The lectures were part of the college's non-Western core program.

Dr. Al Brinson has been appointed to the National Computer Literary Task Force of the National Business Education Association.

Pat Jefferson was the featured speaker at the Midwest Conference for Women in Construction. Her topic was "Silent Messages: Non-verbal Communication."

Nearly 100 outstanding students were recommended by over 150 alumni, making the competition extremely keen. The scholarship selection committee had to choose between many students that ranked in the upper 5 percent of their graduating class, had SAT scores significantly above the 1,000 level, and had numerous positions of leadership in their church, school and community organizations.

The awards for these superior students will be $1,000 each, with an additional $500 awarded for students living on campus. These funds are university designated, given in recognition of the record of excellence and accomplishment of ICU alumni in an effort to continue that excellence by enrolling superior students with leadership potential.

MBA Alumni Host Reception

All alumni are welcome! (A nationwide search has begun for a new coordinator of graduate business programs at ICU, as Dr. Humbarger is returning to the classroom as a full-time faculty member. The university continues to be firmly committed to our MBA program and will strive to maintain its excellence and growth.

ICU theatre at Harrison home 🌟
Alpha Psi Omega echoes "the show must go on" for ICU Alumni as well as for ICU students. The vignette of our 23rd President's wife, Caroline Harrison, and her White House staff was taken from the first Fall Semester production, "The White House," and was performed at the President Benjamine Harrison home during the final days of first semester. Alumni Night of the annual Dinner Theatre production (Spring Semester) was hosted by your ICU Alumni Board. This year's production was "The Night of January 16th."□

From the president's desk
The real test of any university is its Alumni. I have often said this and continue to believe it firmly. If the graduates of ICU have a good experience while here, they achieve well in graduate school and in their careers, recommend the university to others, and support its programs.

We are fortunate in each instance. I receive letters regularly from alumni, especially those who are in their first year of graduate school, commenting on the excellent education they have received at ICU. Without fail, they share the fact that they were well prepared here and are quite competitive with graduates from other undergraduate institutions.

Alumni continue to be our best recruiters. Not only do they encourage attendance by their own family members (as evidenced by the number of second- and third-generation students and younger brothers and sisters who attend) but they bring us the best students from their schools, churches, and neighborhoods. The competition for Alumni Scholars has never been greater than it was this year—and by students with superior qualifications.

In this year's Annual Report of the President, now in preparation, I will be commenting on the strong financial support provided by our alumni. Each year the percentage of participation increases as well as the total amount given. We rank considerably above national norms of support by alumni.

Recent weeks have brought contacts with numerous alumni. I recently spoke to the LaPorte Chamber of Commerce. The president who greeted me was Charlie Sparks '79, and the chairman, Lorry Gates '65. At the luncheon of the final four state basketball teams, I visited with Bill Green '56, who led the Marion Giants to victory as state champs and who joins only three others as a coach to hold four state championships. Other alumni like Dave Anceslet '79, coach at Beech Grove, Bob Buscher '77, coach at Hamilton Heights, Frank Craig '70, coach at Arsenal Tech, and Fred Belser '63, coach at Manual, were there, too, among others, wishing Bill well.

At the recent outstanding dinner theatre, "The Night of January 16th," scores of alumni attended, including Mrs. Trellah Glover Bright '29, and her husband Morris, from Bedford, spending two days on campus reminiscing and visiting new facilities. She told me she had lived in Dailey Hall as a student and appreciated the bench which marks the spot where Dailey stood, made from the stone-carved name tablet that was on it.

Sad visits are mixed with happy ones. On January 24, while visiting with alumni in Florida, we stopped to visit the Longs—Leolin '27 and Beulah Mae '28. He was not able to be at the alumni gathering, which he always attended with eagerness. That was to be our last visit. His illness led to his death about a month ago. A more loyal alumnus could not have been found—even to his frequent wearing of his ICU tie and blazer!

Just tonight, as I spoke to a community Lenten service at Connersville, Emmett Anderson '77 spoke appreciatively of his ICU years and especially of the Central Singers and their European trip. He indicated that he regularly uses slides, pictures, and shared experiences in his teaching of elementary students.

I could write on endlessly of the frequent and regular visits with alumni, to say nothing of the letters and phone calls, and the regular articles which I read in newspapers and magazines of their accomplishments. The future of Indiana Central is bright because we have a strong, dedicated, loyal, and achieving alumni. Watch them as they make a remarkable difference in our world! And the beauty of it all is that the current student body keeps increasing and enlarging this outreach. You would be proud to know them. When they graduate, they will significantly add to an already remarkably distinguished ICU Alumni Association. □
