Recital Given By Public Speakers
Great Success

PROF. F. E. MARSHALL BUILDING UP STRONG DEPARTMENT PLAY TO BE GIVEN LATER

The students of the public speaking department, under instruction of Professor F. E. Marshall, gave a recital Tuesday evening, March 15, at 8 o'clock in the college auditorium. The department is growing rapidly and will soon become one of the strongest departments in the school. The students proved themselves to be good entertainers. The program which they rendered was as follows:

"South Carolina," Robert Young
"Hayne—Ellis James Scholfield"
"Mississippi Beulah," Sir Walter Scott—Ralph Light.

"War Homes of the People," Henry W. Grady—Howard Uhl.
"Foreigners at the Fair," Fred Emerson (solo)—Bryan Stewart.
"I Am Not!" Mrs. Hugh Bell—Julia E. McFarland.

In April this department will present "Our Boys," a comedy. Watch for the posters. The recital has proved that you can not afford to miss "Our Boys."

RECEPTION GIVEN FOR NEW STUDENTS

The Y. M. and the Y. W. C. A. gave a reception for the new students on Friday evening, March 14, at Bailey Hall. The visitors were graciously welcomed by the official members of the Y. W. C. A. Recreation Room, which was beautifully decorated in honor of the occasion. A few minutes were allowed after the crowd assembled for each one to speak to his neighbor and become acquainted to the festive surroundings before a very pleasing program was rendered.

Mr. Letchy, superintendent of the Y. M. C. A., gave us first his welcome address and then his real address of the evening, which proved to be 326 Cleveland Avenue, Whiting, Ind., The Mines' Hermine Bowen and Myrtle Banks played several piano selections, after which Mrs. Stonehouse sang "Lovely Flowers" by Faust. The Messrs. Glen and Robert Blackman played for them with an instrumental number. George Misses Violette Miller and Edith Chaffant, too, delightfully entertained us with short readings. Cards were then provided upon which each person was to have their friends fill out their "first impressions" of him. After about thirty minutes of their "first impressions" the guests were invited to go to the basement where refreshments of punch and cakes were served.

We regret to say that an unsuccessful attempt was made to assassinate one of the Boy's Dorms when he was in the act of entering a chicken house last Friday night at twelve o'clock.

DOMESTIC SCIENCE GIRLS DECLARED TO BE "SOME COOKS"

Oh, boy; oh, boy; don't you wish you was a coach, or a manager, or humble scorekeeper? 'Cause that was the ticket of admittance at any fed by the domestic science department Saturday night. And don't you ask any of the boys what they had to eat unless you want to feel hungry, yea starved, for a week. There was chicken, yes siree, chicken and every one of the fixins that go with it. Moreover, the chicken had nothing on what went before or came after. Every course made you gasp—and with for a bigger belt.

As the society column would say and, by the way, this was a real social event for the Messrs. Harry Good, Edgar Bright, Homer Roberts, Ralph Wright, Raymond Stump, Rex Woodin, Ember McNeely, Fred Armettrout, Joe Camblin, Robert Dines, Edward Pence, Robert Hardy, and Coach George, Manager Bishop and Professor Jelich.

Then, if you happened to be one of the especially honored girls, basket ball and baseball were just in time and just as everyone was too full for utterance, and could not object to your presence if he wished, and helped pull and pull and drop on the nice floor of the taffy that would stick on a dozen plates. Then, if you were still able to navigate, you finished the evening playing "Roek" in the parlors of Residence Hall.

Now do you believe the domestic science girls are just so few and hostesses? We do, and if you need convincing—be a basketball star next year and see if they'll do it again.

(Editors note: Permit us to say that the reporter of this article has not exaggerating an account of the Girls. We were there and ate ten ordinary meals in the school and were not one bit unreservedly in favor of domestic science and household arts for women.

CHAPEL HAPPENINGS

Rev. M. De Leach of East Jordan, Ill., conducted the convocation exercise on March 15. Mr. De Leach has been here several times and we are always glad to have him speak to us.

On March 7, which was the first regular school day of this term, Mrs. Lobor, Daniel Cori and Professor George George, also attended the Goshen debate.

Rev. W. H. Toddl of Terre Haute was in our assembly Wednesday morning. In short, he was there without his gun not expecting to shoot. We are reluctant to allow visitors to remain in our church. We are a most inspiring, message on "Preparations for the Future." Mrs. Stanley, state president of the W. C. T. U. spoke in the morning. We appreciate her kind compliments on our college and wish to assure her that we are in hearty sympathy with her work.

We welcome her to the college. 

COURSES MINUS DISCOURSES

Igana Paderewski will give a concert at the downtown Theater, Sunday, March 23. Paderewski is now sixty-four years old and is probably the greatest pianist the world has known since Liszt.

His most noticeable qualities are a splendid personality, virtuoso technical, the color and piquant rhythm of his playing and the poetic and human intensity of his interpretation.

Prices of the tickets for the concerts are from two to five dollars. Paderewski receives very high prices for his recitals, but what with the prices of the fact when we know that he not only lost his entire fortune in patriotic sacrifice for his native country, Poland, but he ran very heavily in debts.

We regret to say that an unsuccessful attempt was made to assassinate one of the Boy's Dorms when he was in the act of entering a chicken house last Friday night at twelve o'clock.

SPRING

Into the second week of a new term and the first rays of the sun are beginning to penetrate. Winter, with his blight of cold and darkness, is beginning to yield to the warmth and light of spring. The air is filled with the scent of new life, and the signs of nature are everywhere.

With the coming of spring, the student welfare committee of the college has decided to institute among the student body a new contest. Anyone who can tell a perfectly truthful story is eligible to enter. A $10 prize will be awarded to the winner of the contest. The following is an example of one story that has already entered the contest:

"Grandpa and Grandma"

We have two of the best grandparents on earth. They are so kind to us and always make us feel welcome. We visit them often at Christmas and during the summer months, and we always feel so happy and safe when we are with them.

NEW STUDENTS.

With the beginning of the new term we greet many new faces. Some of them have been with us a term or two at most, while our returning students are a source of comfort for us. We believe that "grandpa" of "grandma" kids will love us like we love "grandpa" and "grandma".

TRUTH CONTEST.

Knowing well the part played by truthfulness in our world, and realizing fully the necessity of truthfulness as a contributing factor in the formation of a well-rounded character, the student welfare committee has decided to institute among the student body a new contest. Anyone who can tell a perfectly truthful story is eligible to enter. A $10 prize will be awarded to the winner of the contest.

The following is an example of one story that has already entered the contest:

"Tina and Tim"

Last year the Fresenians were green in capers in that people might know the fairness of the contest. This year the Seafarers will be, for they are necessary for this year's class to do so.

HEART PALM

Aunt Susanna's Column.

Dear Aunt Susanna,

I am just an ambitious little college girl. I have brown eyes and a beautiful bobbed hair. In addition, I have Russian boots and a green sweater trimmed in white, so you see I am not exactly a typical young woman. But nevertheless, Miss Susanna, my poor little heart may not be quite satisfied. I do not think that I am hard on the eyes when I look at the faces of boys that have showered me with attentions since the beginning of school. They are not exactly good for the heart, but I am not one of those shallow persons who falls in love with a face, I crave something wonderful in spirit and soul.

Mrs. Smith, Indiana.

Susanna: Your case is indeed unique. It is of tremendous interest to us. We have referred to Dr. Ellis, psychologist, and noted authority on adolescence. We are sure that the verdict is that your complaint is of such a temperamental organic nature that your only hope lies in a psychosis. "Three years in a rural school, however," says he, "and I'll guarantee your heart will be good, for you will be reading the right papers and doing the right things.

Yours sympathetically,

Mabel.

Dear Mabel:

Your question is of such a personal nature that we feel it is necessary to answer it in this paper. We are sending you a stamped envelope for reply.

Susanna:

Dear Emerald:

Your letter refers to Bebe Daniel's address. I advise you to drop the matter.

Susanna:

Aunt Susanna:

I have become very much enamored of four girls within the past three months. I like to go out in the rain an hour or two after a shower and wait out in the rain an hour and a half or two. It is rain and wait. I don't like the complex of the rain so I don't mind waiting. I am unable to say anything of interest about any of them. Don't misunderstand me, I continue to adore as fondly as ever, but there is no particular person of myself. Really, my sensitive nature is such that I am afraid of uncer- tainty that I often toss upon my bed for five minutes at a time before I fall asleep and must do something to stabilize my love.

Yours distractedly,

A. Ackman.

Dear Mr. Ackman:

The matchmaking moves me greatly. Are you sure it is true love?

Practically yours,

Susanna.

P. S. You seem to be a rather attractive young lady. My phone number is Columbus 1492.

If your clock is an hour fast it is wrong. If you set it forward eleven hours it is mundus, but at the same time...

Miss Gordon, Mary, are you homesick?

Mary B. No, I'm here sick.

Last Friday night we had an evening for the supper. G. W. Rezanders was Saturday night, and took us to a theater. "Reggie" says he doesn't have to work next week and a day. Think of it!

SPRING SPORTS.

Spring is here and with it the spring sports are in full swing, track and field day program for May 10. A tentative plan providing for a series of track meets has been arranged. By this schedule the fifty men out for athletics will be divided into three main teams and each will not be eliminated from the league. Its members will be absorbed into track men and one or two candidates for baseball will not be eliminated from the list. The team that has been placing on a poor team. Contrary to the "try-out" elimination, the coaches will keep the active list ready to play with his new assignment any time. The merit of this plan is readily seen. All men are interested, since they belong to particular groups at every step of progress in the series. In its final analysis this will mean that (of the players) the same were formed the interest will converge into the two resultant groups.

How about a "Twilight League" as a suggestion for baseball—upper early on evenings of games, everybody's conscience, and all, admission.

It has worked splendidly. Shall we have one here?

We now have two courts for tennis and two soccer and another one will be ready. So Friends of the Court prepare for this meet on Field Day. The weather was beautiful. Field men are training regularly and arrangements are being made for track meet and candidates for the work for the regular gym class. On Field Day the weather was in field: 100 yard dash, 249, 449, 809, one-mile run, two-mile run, high jump, broad jump, shot put, javelin throw, pole vault and hurdles.

A gold medal will be given to the highest point man. Other prizes will be announced in the future.

LETTERS AWARDED.

At the banquet Saturday night, Coach George stated that the following members of the varsity squad of basket ball were to receive letters this year: Edgar Bright, Homer Roberts, Herman Mack, Harvey Rodman, Fruit, Joe Cummins and Raymond Stump. H. D. Good was unanimous pick as captain of the squad for next year.

STATE CHAMPIONS, WHO?

Sixteen I. S. basketball teams of the state have survived the wading out process of the sectional and regional meets. These sixteen teams represent the cream of the Hoosier Net Artists. Friday and Saturday, March the 18th and 19th, they will battle for the state honors at the Fairgrounds, Columbus.

The Indiana intercollegiate aggregation seems to be the pick of nearly every team. The cream of the meet, although dope is easily upset as has already been proven in previous tournaments.

The writer picks either Richmond or DePauw as the probable winners. Vincennes in the finals Saturday night, the latter two winning in previous contests. Meek may know that "we're for 'em" and we challenge any state in the Union to "try us" better. H. T. team.

BASEBALL.

Baseball! The great National sport! Yes, popular in high schools and colleges because of the shortness of the season, but, however, as many as eight or ten games could be played (weather permitting) before the close of the baseball season. It is a team sport and all intelligence equipped at a greater cost. Why can't Indiana Central, with her fine baseball team in the field that will make a splendid showing among the other teams in the conference, and will we NOT BASEBALL!!!

Charlotte Gillilan and Jessie Weyberoverjoyed since the fourth of March.

The Freshmen are very sorry to lose any of their number to the Sophomore class but are expecting to have them back next year.

CANDY.

Every student at some time in his college life feels the pangs of hunger. Because we have been here at C. C. for so long, we know that when a woman feels hungry she usually asks for candy. Some students have been known to come up with the pangs sometimes because in order to save money they have waited so long a time from the results of these, the Oracle Students have decided to sell candy. They will endeavor to keep a supply of Fresh Candy on hand all the time, and it will be sold, but on Tuesday, Wednesday, Thursday and Friday we will do our very best to appease your appetites. We will not sell candy every hour in the day, a schedule is posted at the Oracle Shop. When you want candy look at the schedule if the window is closed, then have your money ready to pay, and we will follow our schedule in party as it deems necessary.

Some Freshmen are so dumb that they think that a man who Percussion is Elia-cousin's brother. That a matador is to wipe your face. That a musulman is a weight in Ireland. That Patagonia is a county in Ireland. That a pen is a nut. That the dining hall is a table-land.
