FRANKLIN LOOKS STRONG

Violin Section to Compose Larger Group, Amphibian to Close Program

Recently the organization of the college orchestra was completed with Robert Durham being elected president; Mythile Johnson, vice-president; Alfred Blume, secretary; and Louis Johnson, business manager. The orchestra is to be composed of a string section, a woodwind section, a brass section, and a percussion section.

The musical productions of the orchestra include a wide range, the repertoire consisting of the better works of the masters such as Mendelssohn's "Concerto," Grieg's "Peer Gynt Suite," Schubert's "Unfinished," Bach's "Brandenburg Concertos," and descriptive music. Much attention will be paid to the concerted and lighter compositions. Rehearsals are held each Thursday afternoon and membership is open to all students who play instruments creditably. Each year the orchestra presents a concert, which meets with very enthusiastic approval.

Besides presenting the one big concert, the orchestra will be able for church, lodge and community programs. Information concerning ensembles will be taken care of by the director, Prof. Davis. The organization has a membership.

LACK OF MATERIAL DELAYS GYM WORK

Foundations Completed; Annex Expected to Be Finished on Schedule

Construction on the gymnasium has been halted temporarily until the steel material for the framework arrives. Several students have been working part time on the building which was advancing rapidly until the present delay took place.

All of the foundation work has been completed and the tier of bleachers on the south side of the building has been erected. Steel girders are to be placed between these steel columns and these steel columns and these steel columns and these steel columns and these steel columns and these steel columns and these steel columns and these steel columns and these steel columns and these steel columns and these steel columns and these steel columns and these steel columns and these steel columns and these steel columns ONE MORE TALE

One final story should be told, that of the returns on the initial investment. In the beginning. Miss Gobin and Miss Tobin paid taxes on the property. The tax assessment was $1,000. The property was sold to the city in 1924 for a profit of $500. This profit was reinvested in the school and the property continues to appreciate in value. Today, the school is valued at $10,000.

One last word of advice to all who read this story. Never overlook the potential of a community college. The returns on such investments can be substantial. It pays to think long term and to invest wisely. Thank you for your attention.
AN ILLUMINATED GRIDIRON

One of the greatest advancements made in public life for our college was the signing of the contracts for the installation of the lighting system which will permit the Gridiron gridders to play their "home" games at home and at night instead of at Washington park in the city.

The uniqueness of night playing on the football field has a great and decided attraction to the fans of the sport world, especially at Indianapolis, and the news of the installation plans has already created considerable interest among the sport writers of the city newspapers. With the propagation of this movement and the "follow-up" news stories, a large crowd from the curious public can be expected to witness the initial lighted game with Frankfort tomorrow night.

One advantage of night playing over the afternoon game is that it permits men to attend classes and natural and naturally a greater and more enthusiastic support can be expected from them. It will, however, not interfere with their afternoon classes or study periods.

SPARE TIME READING

The best way to use leisure time is always a problem to any individual and the situation is even more perplexing to a college student. Ill-advised men are very eager and if any of this spare time is to be used in perusing books, the selection of those literary works should be a matter of considerable consideration.

Francis Bacon writes, "Reading maketh a full man," and no one who desires a full rounded personality can neglect this method of bringing the world's best experiences to him. In budgeting one's time, it is always beneficial to allow a place on the schedule for general reading.

The city and state libraries have modern as well as very attractive selections from which to choose and that should be selected from the philosopher. He states, "Some books are to be tasted, others to be swallowed, and some few to be chewed and digested." Many books, however, are not read or studied in each year, although all though not to be classed as worthy material for a college student's reading. The person who includes in his selection some of our modern poetry and current biography in addition to the productions of our better novelists will not be spending his time uselessly.

LINES 'O CHAFF

By Joe Sterling

"What's the assignment for tomorrow?"
"What's what assignment?"
"Any assignment?"
"I don't know; do you?"
"Maybe it's a review."
"Well, no need to study them; cause if you couldn't get it last time it's too late now."

"How's for writing something for the Reflector?"
"I'll just do a story for that—don't do any articles like that last one—more like eggs we get for breakfast!"

"How'sdowman—eggs?"
"They just ain't eggs, that's all."
"Maybe you don't need eggs!"
"Naw, can't say that I do; the feathers get between my teeth."

"Well, what do you say we start something for the Reflector now that's over? Have you any ideas?"
"Well, if not, what are we going to write about?"
"Oh, that's a wee matter—just go ahead and write—be presupposing—"

"What'sman—presupposing?"

"What a wonderful story we had Thursday night on the football field—there's a gold mine there for copy."

And that, little boys and girls! It's why we wished off onto you. Good-night.

Someone should invent a water-proof wrist watch for those in their class who tip their tongues in their advice.

As for food! We would rather have an omelette, even if the hash has everything in its flavor!

Dear Miss Dixon:

I'm a poor beguiling freshman who is in an embarrassing situation last night. When returning home at a late hour last night, I found the door locked and so I thought it best to go up fire escape. Should I have awakened the dean? She seemed so comfortable.

Acanthus.

When Noah sailed the ocean blue,
He had his troubles; same as you,
For days and days he drove the Ark
Before he found a land to park.

"I've got insomnia."

"How's that?"

"I woke up three times during chapel."

Now that we are going to have night football, we might suggest to the students, that all of the huddle will be taken care of by the team, in the line of duty.

BROTHERS

We had the following conversation with a gentleman in an uptown restaurant the other day:

We see—Indiana Central?
He sees—Yes.
Just supposing you—He sees—1914.

We might add that we would not have noticed him but for the fact that he had lost his napkin and was wiping his fingers on the tablecloth.

The time has come when it is the duty of every one of this college to promote the sale of the new posthumous looking bound jointed pieces of machinery on our campus. They are without a doubt one of the greatest attractions of the season. Those who have not ordered for the time being should do so immediately.

The noise they would make in the tri-fold manner is one of the strange illusions that the summer term goes with. A few hops they would make, one or two more and the odor of hot dust would rise upon the horizon to announce that some harm was not being done to our bodies.

The time has not so far been met with any exceptional cold, and I am afraid that the opposite of this will be the case, for the weather seems to have a decided influence on the air, and this is the time of year when the weather is most likely to be under the influence of the public.

We might add that the same thing can be said of the air itself. The air is filled with the odors of the various trees and flowers, which make the air sweet and pleasant to breathe.

We might add that the weather is likely to be quite changeable, and that the people should take care to have their clothing handy for any sudden changes that may take place.

The weather is likely to be quite changeable, and that the people should take care to have their clothing handy for any sudden changes that may take place.

FRIDAY NIGHT'S PARTIES

GIVE FROM ENTERTAINMENT

Friday evening, September 27, the freshman girls were entertained by the upperclass girls in the New Hall reception room, while the upperclass girls were hosted to the friskle cords in the gymnasium.

The freshman girls, clad in ploug- ham and calico, were on their "first day of school" by upperclassmen in blue blazers, who helped them eke out a living in classes of botany, astronomy, music and mathematics. An entire school day program was carried out, not omitting setting-up exercises, recites and a very important trip to the observatory by the astronomy classes.

At the party in New Hall an airplane ride was given by the upperclass girls. The planes "Spirtis of America" showed its superior structure by coming out first. Before each fellow left the party he had become expert in taking off, flying, landing and in bombmg the enemy plane and he received his pilot's license.

The party in the gymnasium was planned by Miss Ramsey and Mary Lynn Lammm and that in New Hall by Joyce Tabbs, Ruby Velander, Lela Taylor and Louelle Louksa.

Y. M. C. A. HOLS BIG TREASURE HUNT

With more enthusiasm than usual, the Y. M. C. A. held their annual treasure hunt last Wednesday night and the fellows reported an "excellently exhausting" time.

Immediately upon their assemble, the main body was divided into six groups under picked leaders. After receiving instructions, each group proceeded in its searchmg over two miles of telephone tramp in an endeavor to be the first to find the coveted treasure.

One fellow got a bit too close to the others in finding the hidden award of their efforts and each member received a bar of candy for their success. After a period of refreshments, apples were served for re-freshments.

Glenn Eddy and Ralph O'Dell were in charge of the program arrangements.

PROF. HARAMY FACES BIG SPEECH SCHEDULE

Professor J. J. Haramy, head of the social science department of Indiana Central here, has been giving a number of lectures to various civic organizations of Indiana.

He spoke before the Masonic Club at the new Masonic Temple, the University Club, the Rotary Club and other prominent organizations within the city of Indianapolis besides a number of others over the state. His general subjects are "America's Gift to the World" and "Mythology of the East.

At present, Professor Haramy is booked for six lectures before the middle of October and is receiving invitations daily to deliver them before various groups and organizations.

At Central, "Art" is teaching and coaching at Ollis, Ind. Ollis Cooke '29, spent Tuesday visiting on the Indian Central campus.

Delmar Hippsett, Jesse Cooterham, John Thompson, Lucille Luanthy, Kathryn Thomburg, Lawrence Wertz, Dan Hampshire, Homer Achor and Chris Huddleston spent last Sunday in Kokomo attending the second annual homecoming of the First United Brethren Church.

Miss Mary Jo Kinclmick, a student at Franklin College, will spend this week-end as the guest of Miss Hant. Miss Gilbee Walker spent last week-end with her parents in Montpelier. She also attended the Central-Muncie game on last Saturday.

STOP! LOOK! READ!

The girls of New Hall are raising a fund to refurbish the reception room. Taking it as a matter of fact that alumni members have good old college times and that the present student body is still anticipating several social engagements there, the girls are asking for contributions. Help the cause along by sending your contribution to Hazel Foschini.

GREENWOOD, INDIANA
GREYHOUNDS DEFEAT MUNCIE NORMAL IN FIRST CONTEST 7-0

Breneman Runs 70 Yards for Touchdown; Heat Affects Gridiron Performers

CENTRAL LINE HOLDS

The fighting Greyhound football team won their first contest of the season Friday, November 16, 19-
noon from Ball State Teachers College on the home field of Central University. The score was 7-0 in favor of the Greyhounds Saturday afternoon by a 7-0 score.

Both teams put up a good game in spite of the intense heat of the afternoon, which tended to allow up the game some. But when the fact is considered that this is the first time in the past three years that either team has gained the edge over the other, some idea of the struggle is insinuated.

Teams Fight Bitterly

From the kickoff each team fought for the ball, and throughout the second half both teams tried to gain the advantage by continuous efforts. The game was played on the University Heights field, as Central led 7-0 at the end of the first half, and each team put up a steady effort to score before the game ended.

First Quarter

Neither side seemed to gain much yardage in the first quarter, as both teams were held to a slow gain in the opening period. Central had a good chance at a touchdown early in the game, but failed to capitalize on the opportunity. The game was played under hot sun, and both teams were having a hard time of it.

Second Quarter

The second quarter was played under the same conditions as the first, with both teams continuing to struggle for the ball. Central finally scored a touchdown, but were unable to convert the extra point, and led 7-0 at the half.

SPORTS-TEMS

Dave Vance was in the game Saturday afternoon as a defensive end, and his play was a key factor in the Greyhound's victory. His speed and agility allowed him to disrupt the Cardinals' offensive plans, and his leadership was evident throughout the game.

The Dope Bucket

The problem of picking the possible winners of the football games for tomorrow gets more difficult as the teams move into the second round of the season. The homecoming tilt between Michigan State and Minnesota promises to be a battle, with both teams vying for the top spot in the conference. Northwestern's victory over Illinois State could be a strong indicator of their future success, as they move into the second round.

DAILY, PASTOR FIRST U. B.

The Rev. E. H. Daily, pastor of the First United Brethren Church in Indianapolis, was the speaker in chapel Friday morning, September 27. Mr. Daily offered a vocal solo, preliminary to the devotions.

In part, Mr. Daily said that we must be fully prepared in this modern day to be individuals of great responsibility and power. "We go to college," he continued, "for the purpose of developing our mental and moral capacities for the tasks that present themselves to us. In no doing must we neglect the fact that we are without the clear understanding of God in our development."

BAPTISTS TO INVADE HEIGHTS FIELD HERE ON SATURDAY NIGHT

First Contest to Be Played Under the Lights

Coach Good's fighting Greyhounds will entertain theを利用한 복리축산 팀 on the University Heights football field tomorrow night in the first home game of the season. The strength of the Franklin team is well known to most of the local press, and the Greyhounds will have their hands full. But the Greyhounds have put a lot of hard work into their team, and are ready to face the challenge.

The men are all tailing intense interest in their work and are hoping to keep their slate clean this year.

NEWS FROM OTHER CAMPS

Barley

Pony Clark has had his Bulldogs working under locked gates for the greater part of the week in an endeavor to keep out the flaws that were shown in the game with Illinois Wesleyan. Several new plays have been given and the men are hoping to show some of the formations used by Northwestern in the scrimmages against the varsity. The backfield position is equally tilted at present, but the trouble is still with the ends. Experienced wide receivers are being brought into the Bulldog camp.

DePauw

The old gold grizzlies are reported to be in fine shape for their out-of-state tussle with Oberlin tomorrow at Oberlin, Ohio. Although the game with Manchester unanswerable many interesting facets in the line, they have been greatly remedied during the strenuous workouts this week. The huddled men have come under close scrutiny by Coach Dish Hughes.

The Muncie team has undergone a complete renovation since the Indians Central game and have shown some real football this week while in preparation for their game with Bowling Green at the Kentuckians' home field tomorrow. Line coaching has been put in by Coach Dish Hughes, and the team is hoping for cooler weather in which to perform.

Wabash

Practice has been held every night at the stadium, and there is nothing in readiness for the trip to Danville. The lighted field that was broken down at Wabash is a decided factor in favor of the gridiron warriors, enabling them to practice long hours before the shadows fall in the evening.

Cathedral

Coach Ross has been working hard in an effort to cover up the week's mistakes, and the team is now in good condition. Coach will be prepared to hit the field with a strong lineup, and the game will be a tough one for the Indians.

The Baptists have completed a week
