HONORS DAY FOR "MOMS" AND "POPS"

HIGH SCHOOL DAY IS ALSO PARENTS' VISITING DAY

Every year high school seniors and juniors from all over Indiana, Illinois and Ohio will attempt to trek to the Central campus with their pastors and interested friends. This year, the students will be joined by the pastors of our campus. The administration urged every student to write to his or her parents, and to bring them a present or a letter to the parents of each student.

This was undoubtedly interesting to those parents who were able to attend. The parents were taken through the classrooms, dormitories, and art rooms. They were also given a short talk about the value of a college education at Central. The parents were then given the idea on the importance of the faculty by the talk of Dr. H原因是, professor of economics.

We hope the parents won't try to judge the whole school by the number of baked beans served.

There were special meetings for those planning to go home for Thanksgiving.

MANY CENTRAL ALUMNI IN CHEMICAL FIELD

[This is the second in a series of articles about graduates of Indiana Central. If this is sufficient interest shown in this article, the student will attempt to write the化学 articles in the future.—The Editor]

Civilization advances when thorny problems are solved, and hostiles have been opened in this field. It is only natural that graduates of Indiana Central find their place in the field of chemistry. Several of the alumni are now at the head of chemist articles.

Ruth M. Ehrlich, President of the Society of the State of the World, was a chemistry major and has charge of the Bituminous materials laboratory, where control tests are conducted to help determine the durability of asphalt materials used in road construction. Extensive research work is also under the control of the H. S. P. A. A. Roads Administration. The Asphalt Institute is cooperating with the highway laboratories, on the development of new paving materials, methods, and equipment.

The bureau is housed in a new equipment laboratory said to be one of the most extensive testing laboratories in the United States.

Mr. M. A. Leck, a member of the

BASKETBALL CROSS COUNTRY SQUADS HONORED

At a recent chapel program Coach Good presented the following athletic awards: Major basketball awards went to Andy Snively, Housey Barron, and Freeman Horne. Minor basketball awards were given to the following freshmen: George Cross, Julius Dodge, and Donald Yeadon. Numeral awards were given to the following freshmen: Nelck Johnson, Russell Johnson, Bill Hamilton, Arnold Dunlop, Bill Mason and Bill Norton. The following members of the swimming and track teams also received awards: The following freshman received his "C" sweater while freshmen.

With this supply of basketball talent at hand, we will draw your letters of conclusions as to the outcome of William Scribner, Olive Klopp, Allen Johnson, and as to the basketball court in the years to come.

REUNION CONVICTION

The plans that have been made for the remainder of this year give a much greater opportunity than ever before for the former students to have reunions on the campus. This opportunity is afforded by virtue of the fact that the alumni committee has selected all of the students for annual activities and fellowship.

The alumni committee has chosen representatives of the classes of 1916, 1917, 1918, and 1919 to contact the respective classes to secure as full attendance as possible. The most important of these are as follows: A. D. Smith for the class of 1916; R. H. Taylor and M. H. Com- mended for the class of 1917; Groves, D. E. P. Groves, E. I. Young, and George Hard for the class of 1918; Evan R. Smith, E. P. S. Stearns, and Charles G. Hamman for the class of 1919. These committees are at work and should get underway soon.

Dear Diary:

I'm all tuckered out, but I've really got to be, High School Day at Indiana Central, and it was really fine.

Mary Ann and I went to Indiana Central and took a bus to the college. We got there about 9 o'clock but already things were beginning to happen. The sun was shining and the doors were open, and we had to all have fun—and we did it.

First of all, we registered at the outdoor booth where they gave us little orange hats to wear and we were dressed up in our best, so we decided to go to the campus for a little bit and took a look at all those familiar places. It was a lot of fun, but we didn't have time to stay as we wanted to hear the program in the gym. We had a grand time there, and then we rushed off and grabbed some nuts. The program was all fine The girls had a grand time, some singing, a male dance, a a. and a few more speeches. The program was long but we had a great time and we all went home feeling happy.

After that Mary Ann and I both went to a special meeting for presidents and vice presidents in the "A" building. Here we filled out cards and blanks and President Smith read the program, and the whole thing was very good.

The members of the Board of Directors had a special meeting for directors and our students spoke of the great value they received from the college and the good things that had happened since their graduation.

This ceremony will be held on June 25, 1940. It will be a grand time. It is now the time to be thinking of the reunion and the great times that will happen then.

When school and summer are over, I'm all tuckered out, but I've really got to be, High School Day at Indiana Central, and it was really fine.

Mary Ann and I went to Indiana Central and took a bus to the college. We got there about 9 o'clock but already things were beginning to happen. The sun was shining and the doors were open, and we had to all have fun—and we did it.

When school and summer are over,
CLEAR THINKING

Did you ever try to write an editorial? According to the laws laid down by those who know, an editorial is a three paragraph writing with a definite point. The writer is supposed to set forth his ideas on a subject and give his logical reasons for his belief. Life is much like an editorial. We live in three periods; childhood, youth and adulthood, and strive in each to set forth our ideas and our reasons for our ideas.

However, many times our lives are like a poor editorial. We allow petty pride and prejudice to creep into our ideas of life and living, and when we are really "put on the spot" to give reasons for our beliefs we cannot. The more answer of "That's the way I believe it is", is not sufficient. We need good sound reasoning and logic to back up the beliefs and principles upon which we build our characters.

Hearsay and gossip do much to spread prejudice and wrong thinking among young people today. Propaganda has become a fierce diplomatic weapon, more deadly than the air and battle-ship. It comes to us on all sides, pressing in trying to fill our minds with ideas that we could easily label as untrue if we would but take a bit of time to think and reason. Many times the adage, "Believe only half of what you see and a fourth of what you hear," is good to hold to. We are not to become doubting Thomas' and skeptics, but clear thinking will aid marvelously in building a character of which all can be proud.

Gwen—Did you ever take chloroform?
Mary—No, who teaches it?

Then there was the history class which was called a Pullman because it had three sleepers and an observation section.

A FRESHMAN TALE

The farmer stood looking at his wheat and he stroked his beard for he knew it would soon be ready to cut.

At the Baseball Game.

Bucky—There goes Saltman. He'll soon be our best man.
Margaret—Oh, this is so sudden!

It's a mean guy, girls, who will deliberately walk between you and the Koons on the way home.

PRESIDENT'S NOTES

1,000 VISITORS ON HIGH SCHOOL DAY

April 26 dawned with a cold and forbidding drizzle that threatened to dampen the ardor of even the most enthusiastic friends of L. C. C., and nobody's guess was any good as to how large the crowd of visitors would be or how many would have to be served at noon for the annual High School Day crowd. However, it was not long until "Old Sol" smiled between the scattering clouds and continued through the day to welcome our visitors.

Our visitors came in pairs, groups and caravans. Eight hundred and fifty thousand or more registered while many did not. Bishop Root and the Bishop conference superintendents from Indiana and Illinois were present. There were 47 pastors among 435 visitors from White River conference, 28 pastors among 203 from St. Joseph, 12 pastors among 160 from Indiana conference and 10 among 100 visitors from Illinois, besides some from the Otterbein Home and elsewhere. A number of alumni teams came with large groups of their students.

The ministers present were as follows: White River Conference: Virgil G. Hunt, superintendent; Achor, Albertson, Arcford, Beiler, Berry, Brett, Clarkson, Collins, Combs, Cox, C. Eastburg, R. Eastburg, Eckerley, Eiken, Ferguson, Pugh, Frize, Gust Hirtz, Hesselt, Huddleston, James, Keene, D. K. Leban, Leader, Mccreery, Elliff, Montgomery, Null, Oden, Outcalt, Rapp, Reed, J. Roberts, Roush, Settle, Shirley, Simmonm, R. Smith, Snyder, Stickle, Strible, Turkey and Wheeler.

Indiana Conference: Dr. A. D. Smith, superintendent; Angle, Barkley, Kriiger, Fisher, F. P. Holmes, St. Lewis, Osho, Salzmann, Tovalyai, and Whales.

The new arrangement for commencement day on June 6 provides an unprecedented opportunity for meetings, reunions and fellowship of college trustees, alumni, former students, teachers and classmates of '16; '20, '25, '30 and '35, will have their reunion dinner at noon with meetings after noon and commencement at 6 P. M. The trustees will be present at 9 A. M. for their annual meeting. The alumni, especially the classes of '15, '20, '25, '30 and '35, will have their reunion dinner at noon with meetings after noon and commencement at 6 P. M. The dean will preside over the commencement addresses. The classes whose reunions are held this year are working toward as nearly 100 per cent attendance as possible. This is a good time to visit the campus.

High School Day was an outstanding success because of the splendid cooperation of those who participated. It will result in larger student attendance from those charges which had representatives here.

The meeting of women on High School Day with Mrs. Cunningham presiding proclaims greater things in student attendance and accommodations because of their interest. No one can do more than to bring larger success to the college. God bless the women!

Recently I met two fine United Brethren boys on different charges who were the best material in the world for L. C. C., but their pastors had not sent me their names nor talked to them about coming to college, and they had received no literature from the college because we did not have their names. How many such are there in our church? When there is such a tremendous need for more and more people to take the college on the way to be trained Christian leaders how can failure like this be justified? "Brethren, these things ought not to be so."

We can have 200 of the best kind of freshmen next fall if we work unitedly to that end.

WEB SNOOP TO CONQUER

By C. T. TOLDUE

This business of sospa spreading around all the happenings which some students would el-

sibly keep to themselves is certainly not con-

ducive to making friends, but I intend to foster this good community spirit and forget about the sniffer. The baseball squad has given me permission to wear their catcher's regalia, in case, I am donning it today.

To get off to a "flying" start, here's a good

one on Dr. Sample. Explaining that he was going to make a demonstration with TNT, he

bought by saying, "Try and win that clay-

ed class, so you may follow me better!"

The fool's labor in this killer differs:

"There were tears in the eyes of the potato.

The cabbage hung its head because the ears of

corn had heard that the vinegar's mother was

dead."

Did someone say that spring inspired people

to write poetry? Well, we don't know whether

it is poetry or not because

"Map", was seated in the parlor,

and he said unto the light,

"Either you, or I, old fellow, will be turned on tonight!".

Dr. Stirkler—I suppose you've been through

algebra?

Bowie—Well, I went all through at night but could not see the place.

Done Thomas—I throw up my cap. If it comes down, we'll go to the show. If it stays up, we'll study.

Dafyshins

Piegon—Baseball term, as, Dizzy Dean is pinch for the Cards.

Spanish—What Popeye gets strong on.

Pahaw—George Bernard's last name.

Jury—A group of twelve men of average ignorance.

Climate—The way to get up a tree.

Fortification—Two twenty-factions.

Goose—Young goose.

Young gosling—Marion College Journal

Dorothy Glover's theme song: "Who's That Knocking at My Door?"

Professor Davis—When do the leaves begin to turn?

Miriam Davthesworth—The night before exams.

Cop—Hey, lady, you can't go down this street. (indicating a one-way drive.

Miss Craven—Come in, just watch me.

"Well, boys," said President Good, "how are you getting along in school?"

"I'm first in chemistry," said Wilbur Kemerer.

"I'm first in music," said George Riley.

"I'm first on the street when it comes time to go home," said Paul Tyrone.

Herschel Gross (conducting chemistry class)

What is one of the greatest things chemistry has given us?

Fork Chop Eats—Blindlas.

When Lillian was questioned the other day about her telephone conversation in regard to buying a house, she demurely answered that it was for her folks. Well, that's her story and she's stuck with it.

Famous Sayings

Men and women chasing after one another is what makes the human race.

The first ancient was distilled in Arabia, which may explain these birds.

Bell State News.
Y. W. C. A.
By VICTOR W. GROSS

A group of colored girls and a colored male quartet furnished the program for the Y. W. C. A. meeting in Mason Hall, which was held Wednesday evening.

The entertainment at this joint session consisted of readings, vocal and instrumental music, and the group was under the direction of Miss Doris Brown, a student of C. I. C. from Indianapolis.

After the program, a temporary program board over the radio, the Y. W. C. A. meeting and the Mason Program Board at a joint session of the two associations Wednesday evening. April 3.

The program was furnished by Anna Mary Glick at the piano and a girl's trio composed of Misses Edith Niederer and Ida Mae Good. Suitable readings and poetry were given by Aldean Luce.

The chemistry department had a day to discuss the program for April 15. Dr. Sample, head of the chemistry department, presented a few-reel film showing the processes of the atomic structure.

This was also a joint session of the Y. M. C. A. and Y. W. C.

Since the beginning of the collaboration of the meetings of Y. M. C. A. and Y. W. C. the program has had a slight change in the time of meeting and the manner in which the programs are given.

The new meeting time has been established for Wednesday evening at 7:30 and will be changed to the programs on alternate dates, while the Student Program Board will alternate for the subsequent alternative evenings.

The new meeting will be held under the new system was held April 17. The seniors were asked to provide the entertainment.

Marshall Chambers of master of ceremonies and each man's band and speeches which represented the talent of the students.

May 1 will be the next date for a Y. program. Henry J. Fisherberg, a member of the staff, and Henry J. Junier. At C. I. C. Howard Chamber of Commerce will be the host of the Y. W. M. C. A. work and Philharm-

many Alumni Chemists

Indianapolis Institute of Professional Engineers.

Hoes With Standard Oil Co.

Eldon Hoes, '20, is a research chemist with Standard Oil Co. at New York.

Before her marriage she taught English in high school, and she was later principal of a high school in her home town. Mr. and Mrs. Hoes, '20, are two chemistry majors. Miss Ann Glick, a subject of most of her enthusiasm.

Mr. and Mrs. C. Eldon Hoes live at the 725 West 25th avenue, Bayonne, N. J., for Mr. Hoes is a writer for the Standard Oil Co. (Phyllis Carles) is a member of the normal class of 1928. They have two sons 10 and 13 years old. Eldon, who has made a rapid advance, is now head of the chemical laboratory of the Standard Oil Co. New Jersey. The Hoes are planning to return to their former residence visits to Richmond and the southern part of the state.

Dr. Albert Diemer, '29, is teaching at Orangeburg, S. C. He married Evelyn Herderick, class of 1926.

Joyce Tollin, '30, of class of 1930, has been teaching in Woodrow Wilson High School, Near, Waterdown, Indiana. She has about a year's experience in teaching as an assistant to a principal in St. Louis, Missouri, and she is about to graduate in a few months.

She has traveled in the East, South, and West of America, and has visited many universities in Canada.

Dr. Paul Osgood, '30, is professor of English at the University of Illinois. He has been in England, and he is about to graduate in a few months.

Dr. Oscar Good, '32, is departmental and research assistant in the Physiological Chemistry Department at the Medical School of the University of Illinois. He has been in England, and he is about to graduate in a few months.

Dr. John Thomson, '28, and Dr. J. E. Atwater, '29, are two chemistry majors who later entered the field of medicine.

There are many other alumni either in the laboratory or teaching field who have an interest in your work. There are numerous others and we hope to continue this article in a future issue.
Greenhorns Win Opener, Hanover is Defeated

For the first time in the history of the school, the track meet was held on the local oval. Many months of hard labor in the rain, snow, and in condition and we should indeed be grateful in getting to witness this historic event.

Ideal weather prevailed throughout the entire day, and so the Central boys had a great start and the Central held its own, while Enright, Taylor and Central were in the lead.

Enright won the meet with a total of 24 points. Central was a close second with 28.10 points. Stewarts won the 108 1/2 points. Rogers (Rus) won the 108 points. Enright and Ross (Rus) won the 108 points. Stewarts won the 108 points.

A summary of the hits: Davis, Bradow, Wills, Weddell. Davis took four hits. Wills took three hits. Weddell took two hits. Enright took one hit. Ross (Rus) took no hits. Greenfield took one hit.
