The Victory Campaign
Phenomenal Growth of I.C.C. Since 1918

NEW ADVANCE ORGANIZED

For thirteen years, 1905 to 1918, Indiana Central College struggled along with a handful of students, a small chapel, and little recognition from any source. However, the days of cal- 

culation, building, and effort were well paid for in the years that followed. The knowledge and the links that were the foundation of the college have been the base for the continued growth of the institution. The college, now a strong and established force in the educational world, has developed into a college of national reputation.

The college was founded in 1875, and has since become one of the leading educational institutions in the United States. It has one of the most beautiful campuses in the country, with its sprawling green lawns and lovely buildings.

The college has a strong tradition of excellence in education, and has produced many successful graduates who have gone on to make a difference in the world.

The college is committed to providing a high-quality education that prepares students for success in any field they choose.

The college is also known for its strong community involvement and service initiatives, which help to make a difference in the world.

The college is a great place to work and study, and is an excellent choice for anyone looking for a top-quality education.
Sports and Recreation

Even though the aim of Indiana Central College is to train leaders, and not just collegiate athletes, the emphasis is on good sportsmanship rather than on winning the games for the sake of the victories. Another thing it is important to note is that the college is not in the business of training just the good college students, and they are expected to be real students just like anybody else.

We might also make a note that the basketball team last season stood at the head of the list in the Association of Colleges and universities in the United States. We are proud of them for such a record, and, of course, we are hoping they will repeat it this year. Don’t fail to see one of our bas-relief games this winter when you get an opportunity.

Each fall and spring our cross-country teams compete with teams from other high schools. In fact this year there have been three cross-country meets, and each has been a victory for our runners; first at Princeton, Indiana, second, at Wabash college, and third, over Taylor University. This year the team might stand at the head of the list when the season is over.

While in the above view of the affairs we refer to the fact that many of our basketball team last season stood at the head of the list in the Association of Colleges and universities in the United States. We are proud of them for such a record, and, of course, we are hoping that they will repeat it this year. Don’t fail to see one of our bas-relief games this winter when you get an opportunity.

An Appreciation Of Indiana Central College

Few of the students here on the campus now and few of the students of the class of 1917, when the Central College as we should. This is also true of many people all over the Nation, for the Indiana Central Brethren church. To really appreciate it, however, requires a struggle for existence through its entire history. If you given a lifetime to go through and see what it has done and is doing in Indiana. If we could go back to September, 1891, we would find a new college going into existence, with a group of students and a faculty of members. The faculty was small, but eight acres, the students, along with faculty, were forced to go over the campus and use the same building. Rev. J. T. Roberts was president of Indiana Central and was succeeded by Rev. L. O. Weir, who served six years as president. One of the things we wish the students to realize that in its first ten years there were but nineteen graduates of Indiana Central.

Then, with the advent of 1915, came our president, I. J. Good, who has continued to lead our college into the next ten years. He has been here these 26 years. It was not until 1919 that the first class of graduates. Our faculty has grown in numbers, but all great things have had small beginnings. After 1920, the students were graduating in every class by leaps and bounds, until in 1929 a class of 77 members was graduated. Since then we have had numerous classes of large classes, and improvements have been made in the campus. In 1921, the building program began. That year Residence Hall and the Gymnasium were finished. The following year Dalley Hall was constructed. In 1923 Men's Hall came into existence and the only new addition to the campus was built for girls. In 1925 the Nobbitt Ob- servatory was built. The University of Indiana Central was enlarged. Thus we can say, from a building standpoint that the college has been growing up apace.

To illustrate the growth in number of students, let us compare the enrollment figures of 1917 and 1929. In 1917 there were but 35 students in the fall enrollment, whereas in 1929 there were over 400 students in the fall. Until the present year the num- ber of students has been over 120 in the fall and has been over 400 since 1929. Due to the rapid increase in opportunities for work, the enrollment is 124 in 1929, but with the passing of the times and the dropping of factory rates, the numbers will increase more than ever.

During these years the faculty has grown as well. This faculty, which, at the beginning, compared favorably with the faculties of other colleges, is now equal or superior in the percentage of our teachers holding doctor's degrees, while others are working for these degrees. We have made the increasing strength of the faculty, the college has gained in reputation as an educational institution.

The high quality of Indiana Central is given wide recognition.

The students show a definite inter- est in the development of the The- ratorship in the Central College. To the extent that an appreciation of membership has been made, and that the progress of the college is recognized, it is apparent how soon this membership may be obtained.

We appreciate and love our college, and are grateful to all who have a part in it. It is not because we are fair, we will ultimately do our best to make the college stronger and greater. It is for the love of our friends of I.C.C. in the sincere hope that the college will develop into the largest possible support from all the pastes and people in the North- west Area, as well as from all other.

CHAPEL PROGRAMS

For twenty minutes each day Rep- ublican Auditorium is a "whisp- er" for all students and faculty. The 10:15 bell rings each morning, students file out of classes, library and bookstores to fill in life with the pro- ceeds on its way to chapel. Fresh- men and all other members are present. The services are conducted by Miss Becker in place and organ accompaniment. Thus for the next twenty minutes we are in a spiritual retreat from oc- cupation. The programs are designed to relieve the tension of lessons and work and, at the same time, give an appreciation of God and our fellow man.

It is also of some importance to point out students their privileges and opportunities in the world in which they live.

The chapel period also provides a time when students become better acquainted with each other and when they do not see at other times dur- ing the day. It serves as a medium through which students can know some of the members of the faculty better; for here students and faculty were brought together.

This year the chapel program com- mittee is composed of Dr. John D. Field, Miss Sarah Shetler, and Miss Virginia Craven. The program is planned with care and thoughtfulness by Bevendell Wiss, new United Brethren minister at Clay City, pre- sented by Dr. W. R. Woodruff, and September 18. Among the speakers who have appeared on chapel programs are Rev. L. J. Good, Rev. Roy Turley, Dr. J. E. Har- deman, Rev. Alton Hartz, and Rev. Paul W. Fowler. The final program of the year will be presented by Rev. Smith, pastor of the Central Avenue Church, which is located in the city of Bloomington, and Rev. W. R. Montgomery, Rev. D. O. Teeters, and Rev. Richard J. Hackett of Kanawha Valley College, besides faculty members and other speakers. We have had three complete programs and other programs of special interest.

SOCIAL ACTIVITIES

An ideal student would say that college life is not successful unless the student really STUDENT CHRISTIAN ASSOCIATION

On the Indiana Central College campus, religious activities have their im- portant place in our college life. With all the experiences in connection with camaraderie, it is felt here that religion is not to be exercised in such a way as to make it a place in the week and then dismissed as something unimportant. The training of the College must be under its influence.

Therefore, it was thought best to organize a student Christian association to do with the promotion of religious life integrated into one organ- ization.

The name of the Indiana Central Christian Association was adopted and made up of all on the campus who will share its purposes. Its purposes and activities planned for星期四 Christian living on the campus and to bring the whole student body into the religious activities of the College.

Through one of its committees the group has planned programs, activities, and inspirations which are directed toward the end of building a religious college.

These meetings are exceedingly help- ful and have been kept on a high plane.

Another committee arranges for Bible study and prayer groups. It or- ganizes activities and arrangements that go out into various churches for services and helps in the ginn in connection with the local church. It helped very effectively in the work of the church.

Gover was here for ten days. It also did a very unique service in the Sunday school classes.

Another committee has the Sunday evening meetings, which are of extreme im- portance. It arranges programs for discus- sion, which are very interesting and well received. It is a most helpful and delightful hour.

These social opportunities for this Association in study and pro- mote the best type of social activities.

The Christian Association is a very important organization on the Central campus.

Yes Certainly!

It is no secret that many parents worry about their children's minds when it comes time for son or daughter to attend college. A serious question of all is regard to the kind of environment and the kind of companions in which he or she will live. It is most import- ant for both the parent and the son or daughter concerned to be concerned about that question as early as possible.

To be in a college for four years where the faculty and student body, in a large sense, are concerned in maintaining the best of moral and moral standards, is a privilege that few colleges offer. If only we have, or are, sharing the experience. What can make for happier living than for a whole group to agree to promote only those activities and forms of recreation which are ed- ificive and helpful, and to avoid those practices that are detrimental or questionable?

The question, of course, arises as to how such a situation can be ob- tained. The decision, it is believed, that it should be so when a college administration chooses the teachers and students and establishes a plan of work. It is fortunate for us at Indiana Central that the college administration, from the original pur- pose that this should be a reality, has been able to do this. They have taken the college with the highest mor- al standards and with such means as the college has been able to acquire to those of lower standards to secure their gifts or their presence as students.

What better assurance can you bring as a Christian to a prospective student than a Christian teacher and fine Christian student associates, to have the best-possible Christian influence daily with such a student body, that you can give them, and that you can have ample time to study while at the same time having the best type stu- dent companions?

We have successful athletic activities, great moral organizations, help- ful social groups, and a fine church club and a well-rounded program of religious activities.

The Victory College of Indiana Central College did well in having such high purposes for the college. The present year is a great year for the college in the past where it is always the attitude of all its promoters and friends.

With such a history, such an organization, such an outlook, such a future, everything possible is being done to render the college to render greater services in the future. There are tremendous possi- bilities, and the future is one of the most promising for our college.

It is a great week at the Victory College.

The Victory College offers the students the possibility of being connected to work and the work of Victory College.

We have with this a great deal of work for the student body. We are in the middle of the war.

The Victory College has one of the most exciting weeks of the year.

THE VICTORY CAMPAIGN

The Victory Campaign is the first of the larger conferences for the Victory Fund Campaign. For that very reason urgency should be attached to the results of our efforts. Reverend Virgil C. Hunt, our conference superintendent is the director of the campaign in our conference to reach the ministers of other conferences to equal. Their subscriptions are averaging a point of salons for one year, to be paid during this present quinquennium. Some made even higher pledges in the locality. We cannot render the service required of us unless concentrated Christian leadership. Indiana Central College is rendering remarkable service at this point. Now our church larger funds for aged or disabled ministers. Let us seize this opportunity to promote two generous causes through one generous gift.

Signed: Fred L. Dennis, Bishop

Elmer Smith

Indiana Central College holds a rather unique place in training young men under a Christian service in their chosen field of activity. The teaching profession is in much need of North Central Conference. The Victory Campaign is to help answer this need. Every loyal United Brethren will do his best for our college. We are not members of the North Central Conference but we are determined by the Grace of God to lend our support until we become such. God is blessing us abundantly, as we honor Him with our gifts for this great Christian Institution.

Elmer Smith

Every pastor on every charge along with every interested layman in every local church in every district in Indiana Conference should realize that WE MORE THAN EVER is the opportune time to work hard to reach every Victory Campaign Goal, thus rendering invaluable assistance to the Ministerial Pension Bureau which provides an income for our aged and retired ministers as well as lends Indiana Central College which adequately trains our young people for Christian leadership and service. ALL OUT FOR A Victory Campaign which will mean a strong Christian service.

L. W. Mayhugh

As loyal United Brethren we are challenged with a great Victory Campaign. Two most worthy interests of the Church present themselves: the endowment of Indiana Central College and the completion of the Ministerial Pension Fund in our Area. This quadrennium will be marked with a great achievement when we have completed the Victory Campaign. All are to have part and all will receive the benefits.

William T. Barker

The college and Preacher Pension are kindred interests either of which is sufficient to warrant our very best support. This is our opportunity to do something worthwhile to meet two great needs of long standing. A united effort and generous response will bring victory. Let us go forward to conquer with Christ for Christ!

A. W. McMurtry

The college and Preacher Pension are kindred interests either of which is sufficient to warrant our very best support. This is our opportunity to do something worthwhile to meet two great needs of long standing. A united effort and generous response will bring victory. Let us go forward to conquer with Christ for Christ!

C. H. Ivy, Secretary

Victory is a word which appeals to the enthusiasm of every layman, and the Victory Campaign also appeals to each of us. The people of Indiana Conference have given of the great ideals of Indiana Central College. It is not enough to say this on paper, but speaking it with material means will prove to the college and the church the value of our gifts. Let us get into the swing of the Victory Campaign.

Dr. Horton McCormick

These are times which call for heroic acts and deeds of valor to preserve our nation. These are also days when sacrifice and loyalty to God’s cause and His church have now and added significance for every lover of the church. No arguments need to be marshalled, for every church member knows the real worth of a Christian college (Indiana Central) and the need for membership in the North Central Retirement Funds for aged or disabled ministers of other conferences to equal. Their subscriptions are averaging about ten percent of salaries for one year, to be paid during this present quinquennium. Some made even higher pledges in the locality. We cannot render the service required of us unless concentrated Christian leadership. Indiana Central College is rendering remarkable service at this point. Now our church larger funds for aged or disabled ministers. Let us seize this opportunity to promote two generous causes through one generous gift.

There was a time when we needed the Christian college more than now. Education needs re-orientation on educational topics. This is a time for the Christian college heart and soul to make the Victory Campaign a real victory.

A. W. McMurtry
