To express these things which means most to our lives is always difficult to do. Your reporter encounters these difficulties in telling of the annual spiritual retreat which was held March 6, 6 and 7.

Dr. D H Gilliatt of Bonneau Seminary was the speaker for the four meetings which made up the retreat. In his messages he brought out truths which we have neglected to consider. He encouraged us to examine our lives and to draw near to God by his depth and understanding and to endeavor to change ourselves.

To the mixed quartet and the glee club from the college and to the church choir we owe the beautiful music which harmonized with the messages.

We cannot measure the good result but thus we do know that the retreat has always been a tune of spiritual enchancement to those who attend.

A CHANGE IS MADE

Every year about this time the organizations change horses as new officers are elected to carry on the work of the previous year. This year is no exception. It is the duty of the present Editor to take his leave of the Reflectors public and hand over the privileges to the coming generation.

There have been several changes in the Reflectors during the past year. Some were planned for, while some were simply unavoidable changes which may or may not have suited all of us. Whether they were good or bad need not bother us now that a new administration is taking over and will have its own way of doing things.

To Bob and his staff I wish the best of luck in the world that next year may be the Reflectors biggest and best year.

To you who have been painstakingly reading the paper this year I wish in behalf of my staff to say thanks for your patience and long suffering.

To my staff of co-workers I wish to say that I appreciate your help, your spirit and your willingness to cooperate. The Reflectors could not have been printed without your help.

And now to all alike I wish to say thanks a million and may the Reflectors continue to throw a better and better reflection of Indiana Central as the years roll on.

Sacrifice

Knowing there’s nothing so kingly as kindness and nothing so sweet as truth—nice.

Yet there’s nothing so Christ like as sacrifice.

One may think of love as our Savior’s dominant attribute, but love initiated His every sacrifice. It is love for freedom and liberty given by our Christ-like forefathers that we sacrifice. Here almost every student is working extra hours; some are entertaining, others have given up ample for cramped quarters, cross there is room to make the most of the present. In the words of the men who have sacrificed and will sacrifice: Some young lads have given their radios that the Flight Cadets might have one or two in the whole barracks. Everyone is sacrificing meat on the altar of freedom.

We will forsake all with this ever before us, “Who is he that will harm you, if you be followers of that which is good? If ye suffer for righteousness sake, happy are ye: and be not afraid of their terror, neither be troubled.”—Peter 3:13-14.

A Word from Our President

The Indiana Central College Training Detachment for Air Crew Students is now completing the third week on the campus. This important work was recognized by the President of the college, and on Sunday, February 27 and 28, the first week was given to military drill and lectures under the direction of the army officers, then the academic work in physics, mathematics, geography, history, first aid, and English began. The army itself has a staff of 6 or 8 men. They look after the ordinance, technical training, and discipline while the college is responsible for the academic instruction. Lt. H. R. Morgan, the commanding officer, has given every evidence of a desire to help make the stay of the boys in Indiana Central as pleasant as possible. So far as possible the instruction is being given by the regular teaching staff of the college; however some new faculty members have had to be employed, especially in physics and mathematics. The whole group was broken up into quintets with one fifth of the whole number, or sixty, leaving the college each group.

It is encouraging that a good number of letters and applications are coming from young people who are graduating from high school this spring looking toward entering college either on May 17, July 7, or September 6. Although the college now is rendering splendid service to boys in military training, the regular college courses will be continued. It certainly is just as important that young people be given the best type of education and training for services after the war in the way of teaching and other professions as it is that the boys should be given training for the immediate emergency. Indiana Central is going right on without interruption with the regular college courses and as nearly as possible is maintaining its normal activities and student life. Every pastor and parent of the children should do his best to help the young people who should come to college.

Even though the boys are being called to the army, in some cases they would have an opportunity to be in college a year or more if they start this summer.

While the ditching machine was coming up west of Daily Hall and along the tunnel, it seemed to be cutting an awful gash into our campus, at some places 9 feet deep, and yesterday they reached the highway and made it possible to make connections room to room in time to prevent a sand fence from the floating of the basement in Men’s Hall. The rain this morning was heavy enough to prove the value of the new drain.

The heavy increase in the requirements placed on the kitchen and dining room make new facilities necessary. A large refrigerator eight feet square is already installed and in service in the storage room. The kitchen floor is getting a new tile covering, and a new stove will be placed in the kitchen within a few days.

Two hundred and sixty four new chairs and quite a number of new library and study tables, as well as chairs of drawing and new physics laboratory equipment add much to the possibilities of the college.

For the last several weeks the Victory Campaign workers have been helping Dr. Hunt in White River Conference. The total amount reached at the present time is approximately $537,000. The actual amount realized in the Victory Campaign. No stone should be left unturned until the goal is reached and no one who loves the college should be content until he has done his part in helping to reach the goal. We are all glad for the services that the college students are giving in this emergency for the army, and for the fact that the rendering of these services makes it possible to proceed with the larger development of the college. We are all happy too, that the Victory Campign is now a start for the greater Indiana Central College in the years to come.

Because of the modifications in the schedule that have been made necessary on account of the schedule of the Army pre-flight students on our campus, the dates for our Commencement activities have been changed. The Commencement services will be on Friday, April 30, at 6:00 in Kephart Memorial Auditorium, and the Baccalaureate service will be held on Sunday evening, April 25, at 7:30 in the University Heights United Brethren Church.
