Behind The Looking Glass

What Do You Think!

Why do we have compulsory chapel? Do final exams test the abilities of the students? How does our college system prepare students to enter the world of today? How do the results compare? Do you think this system were adopted outside speakers for who would dare to ask an outleges and how do the results compare?

Kom-Korner

-Desklserant! We can only work till midnight. The students think of such questions. May schools have tried substitutes for as many? and how do the results compare? Of each take side and forth and students 'like for TOUGH QUESTIONS!

TOUGH QUESTIONSH

Dr. St. Clair: "You in the back of the room, what is the date of the signing of the Magna Charta?"

"I dunno."

"You don't? Well, let's try something else. Who was President Washington?"

"I dunno."

"That's right. Can you tell me what the Tennis Court Oath was?"

"I dunno."

"You don't! I assigned this stuff last Friday. What were you doing last night?"

"I went out and had a good time."

"You did! What suddenly to stand there and tell me a thing like that! How do you ever expect to pass the next test if you don't do your work?"

"Well, I don't..." You see, I just come in to fix the radiator!"

Gone Is Gerty

by Betty Burn

Spring is finally here — well, practically. And with the coming of spring, it seems as if everything has to be in order, even to the biology department.

If one peruses the biology laboratory, he can see in the front a figure with a new plastic coat. One tends to wonder, "At last, Gertrude has a real coat, and it's about time too. The poor old girl has gone through these many years without one!"

But on closer examination, it is found that this is not Gerty at all, but a new, clean, plastic coat. And this framework has many improvements over the old one. "It seems as if someone! Just think, he has decked the old Gerty out with a new one!"

With all these modern improvements made, it can be said that he is an old man with young ideas. That he surely is, especially in the person of Dr. W. P. Morgan, who shows himself to be 20 years younger than his body.

All of this is well and good until one asks what happened to the old Gertrude? Well, perhaps it is life itself which he fears some vague elusive thing that won't dry out as the old one did. But what lack I sented at the annual Awards Day not know. But so much that he does not know, and so much that he does not know.
