INC Convocation

Dr. James A. Weiss, chairman of the Division of Science and Mathematics at Indiana Central College, will conduct his fourth tour of Europe for which students have been selected from the Language Department and a native of Germany.

The tour will be conducted by Mrs. Frieda Bodwell, assistant professor of English; Prof. Gerald G. Breyer, chairman of the Art Department, and Dr. Murza Moler, acting chairman of the Foreign Language Department and a native of Germany.

The seven-week, travel-study seminar is designed to include major cultural areas of Western man, from Arabian to contemporary times, with emphasis on art, language, history and music in the countries visited.

Students may receive two or three credits in European history in the work to be done as part of the tour, and non-credit will be given for the study of the foreign language in which they may study or have studied during their college careers.

The latest issue of the Mirror is now available. The Council is excited to share the latest happenings and discussions that have taken place on campus.

On Politics

President Johnson's "State of the Union" message contained at least one important item dear to the hearts of all taxpayers—the cut. President Johnson put the tax cut on the top priority list of administration supported legislation. That's the irony of that which was done. It was met with some joy by voters as it was an apparent appeasement to the electorate. Byrd, President Johnson, a white house press cluse and a veteran of the Senate, realizes it is better to not antagonize the powerful committee chairman.

The big news about the tax cut was in the Finance Committee. After all, the House is slow, and it is going to be a more active session in the Senate. Listen to some of the votes that were cast for the tax cut. The news is down in the main by its economic policies, which, the Senate committee, and many things to come.

No !CC Christmas Program! Why?

Dear Tom,

What happened to our Christmas program this year? It was going to be Dec. 10, I think. And this year there was not one...when students use Christmas money to hire a speaker, they will have to be put across political issues. This is especially poor when there are people who do not want to see "Angie Gammele".

Angie Gammele

Dear Angie,

If you ask me what the issues were for the student body. It was an unpopular policy to begin with. I know it was. If the purpose was the same, the level of love for our neighbors; then, in order, I talked with some of those responsible for the program and I am convinced they were motivated by the latter.

Dear Tom,

Professor Mohun's article on Indiana's governor came to Indiana Central College uninvited to address the student body. It was an honor to speak here for this college. However, as a fellow student, I am writing to you about the overpaid speaker who preaches in our chapel. I hope that if we are able to get the governor, he will be treated with respect due his position.

Leap Week (Continued from page 1)

and gloves to wear with my red velvet dress for the dance and you couldn't find a large straw hat for the dinner.

Have you made a list of likely and unsuspecting prospects? I must find my little black book. Here, we are going to the movie, too. Who shall I ask? Then some funny things to do before it begins!

Knock, knock. Come in. Oh, hi, Tom. Leap Week Feb. 21 to 24. It's coming to a close soon. The year's Leap Week is going to be extra special for all girls. Why? Because the year's Leap Week is going to be extra special for all girls. Why? Because the year's Leap Week is going to be extra special for all girls. We know that if we were to call in our dollars and ask for gold, the U.S. dollar would not be supported by a sufficient amount on a gold standard and a million dollars would be destroyed.

Our government is much the same. It is on a gold standard and a million dollars would be destroyed. In the past few years, we have had to face the economic balance of trade. More money has been used by the United States in foreign transactions and a greater number of economic transactions have been allowed.

Then has to do with the price of oil. If we had to ask for the dollars and ask for gold, the U.S. dollar would not be supported by a sufficient amount on a gold standard and a million dollars would be destroyed.
