Newcomers will be regaled with tales of each pro's worst personality traits and his almost inhuman treatment of students. Fickleness and true tales of dorm life will rain down on the heads [continued on page two]

of importance, the freshmen were "marked." This was the speculation of the fresh- men, who were on their way to Clay- ton's renovated campus on Friday, September 11, to make their debut on the university scene.

During the summer the freshmen were greeted by letter from Miss Helen England and by two sophomores, Dennis Stoeck and Mary Sue Everitt, who served as co-chairmen of the first three-day orientation period. Jane Berneman, Nancie Latoe and Carolyn Darland also worked to systematize the Big Six pro- gram.

Friday's registration period ar- ranged by Judy Scott and Ann Gilligan was the final freshman man's first introduction to the college. Freshman students were fa- cilitated with the churches in the area and were enabled to meet the ministers of these churches so they could attend the church of their choice on Sunday morning. The traditional walk with the sophomores, planting, informal meet-the-faculty and the orientation period was the pres- ent-day experience on Saturday. Freshmen were able to meet the adminis- trators of I.C.C. The hooding on freshman day, the All-College Tea. the Bardens also gave the fresh- men a chance to meet many of the returning stu- dents.

As Sunday evening drew to a close, it was evident that the freshmen would not discard their freshman status at least, Jeff Kellams and Irlieh, co-chairmen of the brotherhood of freshman organization, promised that their newness would continue. Freshmen are now more convinced that those early ponderings were in- significant. Their new response is, "I thought I knew what I was doing here...I thought."
