An organized pep band is becoming a reality on the ICC campus this year. The band is planned to ignite Central's spirit at basketball games and other student events.

The idea of a pep band at Indiana Central College began when a visiting school's band played for a game on campus. No particular committee was appointed to form the pep band, but rather a group of interested people took the initiative. Mike Bertram, Pat Comer, David McGuff, Danny Nicson, Phil Soper, Professor John Swans, Professor Lowell Boardough, and several others have been instrumental in the planning.

Danny Nicson acquired a set of drums from Homer's Music Store in exchange for a year's advertising. Interested people are donating money, and fifteen blazers have been ordered.

Fourteen members are now in the band. They are Bill Squires, Jim Farrell, Don Crawford, Donna Catlin, Glenda McCall, Dan Rice, Jim Broderick, Pat Comer, Dave McGuff, Phil Soper, Dennis Wolf, Jim Tom, Jim Ferriter, and Carter Tetterton.

The band plans to play before and after the games, during the halftime, and at various intervals throughout the game. Many students believe that this Pep Band will raise the school spirit considerably.

Central Council president Mike Bertram plans a Pep Band is now a reality on the campus of ICC, and credit goes to many people who have co-operated in its formation. The band will be something of which we can be proud, and we owe an expression of appreciation to those students who have time to play in the band.

Junior Bob Colman added, "I feel that a Pep Band adds a unifying factor to the fans. Nothing against the cheerleaders, but a pep band adds pep, especially when they play good popular music and give the school song some needed pep."

Senior Pat Comer summarized the feelings of many by saying, "The band is going to be great! Membership in the pep band is still open. Anyone interested in joining should contact Mike Bertram or Phil Soper."

Dennis Wolf plays new set of drums which has been acquired for the pep band.

---

**United Methodist Church Is Possibility For Future**

A few weeks ago the General Conferences of the Evangelical United Brethren and Methodist Churches voted approval of a plan of union of the two denominations. The action instigated much discussion concerning the aspects of the church life to be involved by such a union if it is made official.

President I. Lynd Esch, who attended the General Conferences, explained some of the points voted upon. The plan approved by the General Conferences is one which, if approved by the church, it approved necessary qualifications to the church and it approved a total discipline for the new church. All the details of this discipline have not yet been worked out.

The plan of union is now to be presented to each 1967 area conference of both the EUB and Methodist Churches. If it is approved at this level by a two-thirds affirmative vote, the plan would be voted on at the General Conferences in 1968. The newly-formed church would be named the United Methodist Church.

The United Methodist Church would become the largest denomination in the world with approximately 11 million members all over the world.

Dr. Esch emphasized that the idea that the smaller EUB Church would be lost in a union with the larger Methodist Church is completely false. He explained that there would be really no change in the individual churches except as those churches themselves voted for a new church. The United Methodist Church would probably lead the eub Church in joining the United Christian Fellowship.

Although, there will be no immediate effect on Indiana Central, if the union is made final, ICC will then become a member of the University Senate of the United Methodist Church. Dr. Esch mentioned that church union members of the EUB and Methodist Churches now constitute over 50 percent of the student body.

"I think the union has very great potential as far as higher education is concerned," Dr. Esch commented. "Indiana Central will likely fit into the national pattern. The United Methodist Church's division of higher education, but there is no central division between ICC, Depauw, Evansville, and others."
Students Discuss Cafeteria Opinions

Get it off your chest! We, the students of Indiana Central College have griped and grumbled long enough! Now it’s our turn to make our complaints and suggestions to be heard. We must express the desire to see improvements made in our cafeteria. 

VICKI WALTON — I wish that the breakfast line would be open until 8:30.

SUDE DEVANE — I would like better coffee and rolls in the cafeteria.

LOUISE MARTIN — Food should be checked carefully before being served. Sometimes it is over or undercooked.

VICKI MOLINAUX — The food is usually pretty good. I like the idea of Family Style meals. It gives a homey atmosphere, and is an excellent opportunity to become acquainted with fellow students.

BOB GARNER — I think the food is adequate but the two-drink policy is a turn-off for me.

KATIE HONNOY — It would be nice to have a salad, table again.

TOM ECKERTY — Since we pay for meals we miss, we should be able to loan our meal tickets.

JOE WATSON — Breakfast hours should be extended. There’s too much fuss over meal tickets.

DIANA CATLIN — I like the idea of posting menus.

FRANK MCKERCHIAN — There should be a “police” of two drinks at breakfast, and the food is always warm.

JOHN SWITZER — My compliments to the chef.

LINDA RULE — Dinner meals are far better than breakfast or lunch meals. The variety in the lunch lines. The cafeteria crew does a pretty good job. It would be nice if we had a variety of different drinks once in a while.

COUNCIL KEY-HOLE

Many of you may now be aware, especially if you are of voting age, that an Indiana resident going to college in his home state, but living outside his voting precinct during the school year, is no longer able to vote by absentee ballot. This necessitates, if one is to fulfill his civic duty, a trip either on election day or on a Saturday prior to election day.

Several schools, most notably Indiana University and Purdue University, are attempting to get this act of legislation changed in the next Indiana General Assembly. I have been contacted by Indiana University to support their efforts in this attempt, especially through financial support.

I, however, feel that Indiana Central would have more to gain for this cause and for herself, if we undertook a project of our own. Following the initial action of Purdue University, we might write a letter to the Governor of Indiana, the Lieutenant Governor, and to each of the state senators and representatives expressing our desire to have this legislation changed so that Indiana’s resident college students would, once again, have the right to vote by absentee ballot.

But, I do not feel that this should be the only action taken on this matter. I, therefore, challenge each student to be critical of his public officials, and, if they fail him, to improve it, and finally, to give assistance in completing it. If handled properly, this project could mean some always needed publicity for Indiana Central College.

Prof. To Present Tour Review

Dr. Roland T. Nelson, chairman of the department of History and Political Science at Indiana Central College, will show slides and discuss his summer tour of Africa at the German Club on Thursday evening, December 8.

The program, sponsored by the History Department and the International Relations Club, will begin at 7 p.m., in Recital Hall.

Dr. Nelson was one of a dozen midwest social science professors with the tour, sponsored by the U.S. State Department, that visited Nigeria and Senegal and Kenya.

LETTERS TO THE EDITOR

Why is it that Academic Hall is locked up like a tomb on the week ends? A student who has left a book in his locker or works with WIRC has some other legitimate purpose for wanting in the building to have this door open in every door in order to find the one that may have been left open that week.

I, for one, feel that the students of Indiana Central College students ought to have the privilege of studying in Academic Hall and being admitted for these other purposes or the week ends as well as during the week.

Recently, there has been a controversy over the use of the building for play rehearsals. It seems as if Mr. Fisher has been asked to file a paper each day stating the amount of space the rehearsal will require and which doors will need to be open. And, if this isn’t enough to disgust the students involved in the play, any time one of them needs to get in the building, the Custodial staff and Custodial staff and Custodial staff and Custodial staff and Custodial staff and Custodial staff must be informed that the doors are locked.

If we do not take steps to remedy this situation, perhaps the play will not be permitted to go on. If this is the case, I feel that the students involved in the play should stand up for their rights and be granted the use of the doors.

Students Evaluate Thieves’ Carnival

Comments on the play given November 16

Players were both favorable and unfavorable. Students agreed that the acting was very professional and the characters were well cast. The most favorable comments concerned the colorful costumes and scenery. Several students mentioned the use of the Latin alphabet because of a lack of knowledge of French culture. The majority of students interviewed did not like "Thieves Carnival," but everyone felt that the cast, crew, and director deserve compliments for their treatment of it.

WHO IS WHO'S WHO?

Dear Editor:

It has come to my attention that one of the main ways of avoiding criticism on this campus is to keep a secret that which may be subject to criticism. I find it very difficult to criticize intelligently, that which I know nothing about. A case in point concerns the selection of senior students to WHO'S WHO.

Now certainly I consider it a great honor to have been selected for this distinguished publication, but am I asking too much to know why and by whom I was chosen?

If selection was based upon scholarship, then certainly many others are much more qualified than I for this honor. Likewise, if selection was based upon athletic ability, I definitely fall short of many more. If selections were based upon extra-curricular activities, then I begin to see a chance at how I came to be selected for I have medled in many activities. Yet, upon reflection, many students who were not chosen have been involved in many more activities than I. If, as I suspect, selection is based upon a combination of the above mentioned standards and also upon total worth to the college, I'm afraid that under careful scrutiny I still add up short to

19 Named to Who's Who

Chris Blumberg, Judy Scott, and Johanna Kinkade discuss elementary education in the cupboards.

Nineteen Indiana Central seniors have been selected for membership in Who's Who Among Students in American Colleges and Universities. Their honor is a result of faculty committee's consideration of the students' scholastic standing, their participation and leadership in academic and extra-curricular activities, their general citizenship and service to the college, and the promise of future usefulness to society.

Bob Berry, a history major from Indianapolis, has been a busy man for the last four years. During his junior year he spent many hours involved as president of Inter-Club, Young Republicans, and International Relations Club. Due to the amount of time Bob found it necessary to spend as manager and trainer of the football team, he was forced to drop many of his activities during his senior year.

Bob is also a member of Alpha Phi Omega, Alpha Phi Gamma, Business Club, C-Club, Oracle staff, Reflector, Phi Delta Theta, Sigma Zeta, and the Astronomical Society.

Cheryl Hodges is a member of Business Club, Gamma Gamma Omicron, I.A.Y., SEA, Theta Sigma, Student Council, and Alpha Phi Epsilon. Commi was also a member of the homecoming court, the May Festival Court, and was secretary of the Central Council.

Bonnie Gates, a physical education major from Indianapolis, is best known as a captain of the cheerleading squad. Bonnie is also president of the P.E.M. Club, secretary of Inter-Club, and a member of SEA. She has been in May Festival. She plans to teach physical education on the secondary level.

Cheryl Hodges is an elementary education major from Indianapolis. Cheryl is well known for her dramatic ability and appeared this year in the college's production of "Traveling Carnival." She served as a drill captain for her junior year and is a member of SEA and Alpha Phi Gamma. She has been busy as a freshman counsellor in Trumble Hall.

to ask if that was really his name. He accepted it with, "Miracles cease to exist." Rich is from Fort Wayne, Indiana. His major is Psychology and Sociology. He plans to go to Clinical Psychology and be a college professor. Rich has been very active during his four years at Central. Presently he is president of the Circle-K, and Inter-Club, editor-in-chief of the Oracle, reporter of the SEA, and a member of Alpha Phi Gamma, Alpha Phi Omega, Gray Leader (orator), English Club, Central Council, and Young Democrats. He has been business manager of the Reflector, and a member of the debating teams. Rich has still found time to be an assistant to Mrs. Foote.

An elementary education major from Indianapolis, Johanna Kinkade hopes to teach higher grade education. She has been active in Philadela, I.A.Y., and as a member of Alpha Phi Gamma. She has been active in debate and has worked with the debating teams. Johanna also served for two years on the Reflector staff.

Political science and history are the majors of John Ransom. His is from Fort Wayne, Indiana. John has been active from his freshman year at which time he was president of the Philadela. Now he is president of the Senior Class. He is a member of Alpha Phi Gamma, Alpha Phi Omega, Inter-Club, "C" Association, Young Republicans, and a chemistry major from Mabillia, Indiana, is a member of the Young Republicans, C-Club, Sigma Zeta, and Phi Delta Theta. Larry was instrumental in organizing the Astronomical Society. He has also been a reporter for the Reflector and a member of the track team.

NEW APPEARANCE OF REFLECTOR RECEIVES FAVORABLE COMMENTS

A recent opinion poll of the student body revealed that the new physical appearance of The Reflector is for the most part appreciated by Centralites. The new letterhead which was designed by Charlene Riley excited many favorable comments from students. One person said that it was a much needed improvement and adds "life" to the paper.

Almost all of the students quoted the large headlines as being much more attractive and unusual. Almost all of the students quoted the large headlines as being much more attractive and unusual. Almost all of the students quoted the large headlines as being much more attractive and unusual.

One student opined, "I don't mind the color at all. I think it's an improvement; but the new paper is not as fast. I prefer the old bold or as striking as it was against the white background." Others stated the new letterhead was cheap and that the white paper former was much better.

However, several said that the letterhead makes the Reflector look more professional and attractive. Statements concerning the letterhead. The mains grounds for disagreement are the deletion of the new copy paper.

Cross Country Runners Give Views On Season

With the cross-country season ending just a short time ago, it was felt that this would be a good time to question the boys on their success, experience of this season, and why they enjoyed running cross-country.

One of the questions asked was, “What is your opinion of a college cross-country team as compared to your high school team?” Answers were varied: Mike Grosskopf, a freshman from Martinsville stated, “In college cross-country there is usually a better choice of material. The work is not always harder, but the coaching is a little bit better.” Tom Smith, a freshman from North Vernon answered, “I feel the cross-country team at Indiana Central is one of the best in the country. I have seen the course. It’s a good course and I enjoyed running there.”

Another question asked was, “Why and when did you first run cross-country?” Bob Gamer from Central played running. I have three major reasons: opportunity, Hank Hopkins, a sophomore from Mt. Carmel replied, “I suppose everyone has a little bit different reason for running. I have three major reasons: one is self-improvement; running is the best single exercise for me. For this reason, everyone should do a certain amount of running. Secondly, running cross-country improves my ability in track. The third reason is that I have to keep ahead of my wife, Vicki. She is the second best woman’s distance runner in the state. Last Sunday she placed third in the Women’s Midwest National Cross-Country Championships.” Larry Stone, sophomore from Lapel said, “I started running as a junior in high school. I have been running cross-country since then. I simply liked to run. I still find a good sense of relaxation in running. It is a good physical exercise, and everything for a while.” Jeff Corn, a senior from Bloomington High School in Anderson, states, “I started running cross-country during my freshman year. My biology teacher, who was also the cross-country coach, asked me to come out and try it; so I did.”

Finally, two returning lettermen were asked their opinions of this year’s team as compared with last year’s team. Harold Brown, a junior from Manual High School in Indianapolis, answered, “This year’s team Renewable as did our team last year. We constantly strive to attain a high degree of performance and teamwork.” Next year’s team will have an advantage over this year’s team because we have four seniors returning. This will allow us to set ourselves immediately to the task of preparing to win the Hoosier Conference, because we will all know each other’s capabilities as well as what we can depend on to do.” Hank Hopkins, said, “This year’s team would have to be rated superior because times are, on the average, over one minute faster than a few years ago.”

Central’s football Greyhounds lost 1-0 to the Indiana State Sycamores in the last game of the season. The win was the first Conference win for the Spartans this year. Bob Gamer from Central played running. I have three major reasons: opportunity, Hank Hopkins, a sophomore from Mt. Carmel replied, “I suppose everyone has a little bit different reason for running. I have three major reasons: one is self-improvement; running is the best single exercise for me. For this reason, everyone should do a certain amount of running. Secondly, running cross-country improves my ability in track. The third reason is that I have to keep ahead of my wife, Vicki. She is the second best woman’s distance runner in the state. Last Sunday she placed third in the Women’s Midwest National Cross-Country Championships.”

The main reason for the Spartan win was the fact that they had a third Stringer in that last game. They made it as successful as possible.

The same can be said for the cross-country team. Bob Gamer from Central played running. I have three major reasons: opportunity, Hank Hopkins, a sophomore from Mt. Carmel replied, “I suppose everyone has a little bit different reason for running. I have three major reasons: one is self-improvement; running is the best single exercise for me.
