HELP! HELP!

Several rolls of undeveloped film which were to be used for Homecoming activities this summer. We are in desperate need of pictures from Flat Rock and the house. Half-time brings spring sports (golf, tennis, baseball, and track), and Comment.

Bonfire Sparks

Active Weekend

Homecoming's three-day run of festivities gets its official start as the freshmen participate in the grooved pig chinning competition on Friday, Sept. 21. Supper that night will be served as a picnic in the campus park. Immediately following "The Collector," which will be presented at 8 p.m., there will be an all-school Homecoming utilizing Central Auditorium.

Friday's activities began at 3 p.m. with a bonfire-pep rally led by the pep band. Coronation of the Homecoming king and queen will follow. Breaking tradition, the C-Association will crown the queen on Friday night rather than during half-time of the Homecoming game itself. If weather permits, the coronation will take place outside infront of Rambung Auditorium. Further Friday celebration includes an informal dance.

Early Homecoming morning, Sept. 21, at 11 a.m., the judges will view the various displays by clubs, classes, and dorms. As Indiana Central Greyhounds and the Chicago Illini kick off, balloons will be released, and the presentation of the new queen and her court by the C-Association will follow. Winners of the decoration competition will also be announced at this time.

A dress-up dinner at 6 p.m. begins the more formal activities of Saturday evening. Duke Ellington and his Orchestra will perform at 8:30 in Rambung Auditorium as part of the 1967-68 Artist Series. To complete the special Homecoming events, the alumni will sponsor a reception and dance after the concert.

Attention All Girls

Field Hockey practice every Monday, Tuesday, and Thursday this week; 3:30-4:30, and have fun by participating.

CAMPUS COMES ALIVE

Homecoming Fever Heightens

As Queen's Court Is Named

Five girls and five escorts will set the scene Friday night at the Homecoming dance outside the gymnasium. The escorts are C-Club members: Larry Hughes, Bob Smock, Steve Van Treese, Harry Williams, and Tim Wilson. The C-Club members are: Mary Ann Shellhammer and Susan Springer, as well as Larry Hughes and Bob Smock.

The king will be crowned Saturday night. The queen and court will be presented again during halftime of the game.

Smiley Mary Ann Shellhammer, 5'5" with green eyes and brown hair, adds a special attraction to her parents' farm near Wabash, Indiana. Mary Ann is an elementary major. As far as future plans are concerned, however, she says "I ask Steve."

Not only is she a beauty, but Mary Ann is also a good student. She is a familiar figurehead on campus and is co-chairman of the homecoming activities, as well as a member of the Mary Queen's Court.

Long, shady brown hair and deep brown eyes are probably a few of the firsts one would notice when meeting Janet Jones. She is a member of the Mary Queen's Court and comes to IC from Louisville, Kentucky. Her future plans include becoming a teacher in elementary education and possibly a minor in psychology.

Janet is "standing in the street" when he congratulated her as a member of the homecoming court.

5'4" Lynn Parks is one of the favorites on IC campus. A bubbling personality and a warm smile make students feel like Lynn has always been a friend. As a junior majoring in psychology and minor- ing in business, Lynn thinks it would really be a joy to be "psyched out."" Lynn keeps busy as a secretary, German Club, and second vice-president of Phi Beta Lambda and doesn't find many opportunities for going home to Speedway, Indiana.

With blue-green eyes, 5'5" Jane Middleton greets us from Greenbriar, Indiana. Being a sophomore nursing student, she hasn't found enough time to do everything she wants to do on campus. The grapevine isn't always a good way to hear news, but this time it was. "Such surprises by the grapevine would thrill anybody," said Jane.

Another sophomore, Susan Springer is an elementary education major and minor in psychology. Although the shortest, 5'2" on the homecoming court, she is the only girl's track team member. Susan, when told at lunch that the grapevine was going to select the queen, she counters her ideas in the pudding. She is from Van Wert, Ohio.

Duke Ellington Concert Starts Artist Series

Internationally recognized as one of America's foremost musicians, Duke Ellington and his orchestra will open Indiana Central's tenth annual Artist Series with a concert at 8:30 in the gymnasium.

Tickets are still on sale for the performance. Since the demand for tickets exceeds the auditorium's seating capacity, the performance will be held in the gymnasium. A special section will be roped off for season ticket holders.

Duke Ellington, a man of versatile talents - composer, arranger, pianist, and bandleader - offers his audience a wide repertoire. A cool wit and a highly charged personality are also part of Ellington's talents.

His orchestra has been continuously active longer than any other of its kind. Harry Carney, baritone saxophonist, has been a member since 1927. Johnny Hodges, alto saxophonist, joined in 1935 and, except for a brief absence in the 1950's, has played with the group ever since. Other veterans from the early years of Ellington's orchestra are Cootie Williams (trumpet), Lawrence Brown (trombone), Jimmy Hamilton (clarinet and tenor sax), Russell Procope (alto sax and clarinet), Cat Anderson (trumpet), Paul Gonsalves (tenor sax), and Sam Woodard (drums). Newer members of the combo are Buster Cooper (trombone), Chuck Conners (trumpet), John Lamb (bass), and Herbie Jones (trumpet).

The orchestra tours the United States, Canada, and Europe, and it has been seen overseas as a cultural representative of the government.

Duke Ellington has composed many songs as "Blood" and "Sophisticated Lady." He has also written musical scores for musicals, movies, and television.

The 1967-68 Artist Series will also present: "The National Shakespeare Company in "Twelfth Night," Friday, November 17; Henry Morgan, television and radio personality, Friday, February 9. The Riverside Singers of New York and Die Kammermusiker, a chamber group from Zurich, Switzerland, Friday, March 2. David Brinkley, NBC news commentator, Saturday, April 20.

Alumni Elect President

Dr. Dwight L. Smith of Oxford, Ohio, Mrs. Smith of Oxford, Ohio, alumna, has been chosen president-elect of the Indiana Central College Alumni Association. She is a professor of history at Miami University, will take office next June.

Installed as president for 1967-68 was Robert Theil, Indianapolis, who is vice-president of Belzer Junior High School in suburban Lawrence Township.
Pep Band Needs You!

A new and welcome addition to the football season is the Pep Band, which sparked more than the usual enthusiasm from the Central spectators at our opening game. This is the first year a band has been ready to start the football season.

More band members are needed! You are not required to belong to any of the other musical organizations on campus, so if you can play an instrument, show your school spirit in this way. This spirited group deserves our support.

Speak Up, Centralites!

A regular feature of the REFLECTOR is the "Letters to the Editor" section. This serves a distinct purpose in allowing you to offer your opinion or request an answer on some aspect of campus life at Central.

"Letters to the Editor" is a part of your newspaper and should — as should the entire paper — reflect the various opinions of the student body. All letters submitted must be signed, however names will not be printed if the writer requests.

Science Teachers Meet

An in-service institute for high school science and mathematics teachers began Tuesday, Sept. 16, at Indiana Central.

Dr. Brooker, chairman of the college's Science Division and director of the institute, announced that it will meet in Lilly Science Hall from 9 a.m. to 12 noon each Saturday for 23 weeks, ending May 23.

The institute is financed by a grant from the National Science Foundation.

The integrated course will cover mathematics, physics, chemistry, biology, astronomy, and geology, as they relate to the needs of high school science teachers.

Council Key-Hole

Hi Everyone!! I hope we're all about adjusted to college life. I'm sure that we all agree that it's hectic — but great!!

I think we've started the year off with a bang. Now let's continue our great spirit and enthusiasm in all activities for the coming year.

I think a hearty congratulations is in order for the sophomores on their fine organization of that Sophomore Talent Show was the greatest.

Now let's all get busy and make homecoming a huge success. It can be the greatest one ever — it depends on us.

Frosh, get busy and take an active part in all campus activities — we need you!! Let's all show that Central Spirit!!!

LITTLE MAN ON CAMPUS

Mike Walsh

THE KNOWLEDGE MAN.

"I THINK YOU WILL REALLY ENJOY THIS CLASS ONCE YOU LEARN TO IGNORE MY LECTURES"

SOPHOMORE MATURITY

DEBATED BY FRESHMAN

Since my arrival at I.C.C. and my introduction to freshmen orientation, I have wondered about many things. First of all I wondered whether or not I had made a mistake in the right orientation.

The problem most on my mind concerned those fabulous people known as sophomores. I quite sure you all know who I am speaking of — the people with those little white and red badges on you, the ones standing in front of a choir of people in green hats. I would like to add a question of these sophomores. Have you ever looked so far out of the average Freshman? Remember, this is the Freshman who has recently been impressed with the fact that, as a senior in high school, he must set a good example for the underclassmen in his school. This freshman may also be a mature older person who worked for a few years before coming to college.

This same freshman has been drilled and drilled on the fast track he is going to college to get an education and that the people he will be in contact with will be serious-minded, mature adults who champion education above all else. Sophomores, I ask you, do you look to this Freshman to be considered a person of your own age and people with no time for foolishness? How do you think you Freshmen are doing? There are no other school. This than sophomores, freshmen and juniors on campus. This spring just before the Arab-Israeli war erupted. He was joined on the panel by Dr. Leonard T. Grant, associate professor of history, and chairman of the Graduate Division, who has traveled in the Middle East, and Dr. James A. Weber, chairman of the Department of Bible and Religion, who has spent several years in the Holy Land and surrounding countries.
Indianapolis Central's faculty has increased since last spring with the addition of nineteen new instructors. The Physical Education Department is under the direction of Mrs. Cinnvor Bullard. She began her work for the M. S. University this year. Mrs. Bullard taught for two years at Franklin Community High School. She will sponsor the FEMM Club at Central.

IGC has as visiting Professor of English, Dr. Eliaj Eliajul Jacobs. Prof. Jacobs' birthplace is Tyron, Oklahoma, and is a member of the U. S. Army. Dr. Jacobs has had a wide range of teaching experience as an assistant professor at Western University, Evansville College, University of Arizona, and Duke University. He earned his A.B. in 1920, his M.A. in 1922, and his Ph.D. in 1926 from the American University in Washington, D.C. His Ph.D. dissertation was on the subject of 'The Spanish Revolt in the Philippines.' He is a member of the American Psychological Association, the American Educational Research Association, and the American Psychological Association. He has published numerous articles on education and psychology. Dr. Jacobs will be teaching courses in English and Psychology at I. U. and Butler University.

Rev. Richard Williams will assume the position of Assistant Professor Speech and Drama. Rev. Williams was born in Port Chester, New York. He is a graduate of the University of Michigan and the University of Chicago. He has served as a pastor in various cities, including Chicago and New York. He is currently a pastor in the American Church in London, England. He is a member of the American Genealogical Society and the American Historical Society. He has published numerous articles on American history and genealogy. Dr. Williams will be teaching courses in Speech and Drama at I. U. and Butler University.

Dr. Edward Vondrak is an assistant professor of Physics at Central. He was born in Chicago, and graduated from the University of Illinois with a B. A. in Physics. In 1950, he received his Ph.D. in Physics from the University of Illinois. He is currently teaching courses in Physics and Astronomy at Central.

Dr. John Lorand, associate professor of Education, was born in Marion, Indiana. He graduated from Indiana University and received his Ph.D. in 1930. He is currently teaching courses in Education at Central.

Mr. Lloyd was born in Brownsr-own, Ind. He received his B.A. in Math, Chemistry and Physical Sciences, and his M. S. in Education, 1962, from I. U. He attended Lin-coln Memorial University, Pea- body College and Butler University for his post-graduate work in Education at I. U. this month. Mr. Lloyd, part-time instructor in Journalism, was born in Indianapolis, Indiana. He received his B.A. in English, Journalism and Education from I. U. and the University of the Pacific and is a member of the Indianapolis Star & News staff for 16 years. He is a member of the Indianapolis Star & News staff for 16 years.

Dr. Hartman was born in Battle Ground, Wash. He received his B.A. in History and Political Science from the University of Washington and his M.A. in Psychology from the University of Washington. He is currently teaching courses in Psychology at Central.

Dr. William Hoggess is a professor of Religion at Central. He was born in Chicago, Ill. He received his B.A. in Philosophy from the University of Chicago, and his M.A. in Psychology from Butler University. He is currently teaching courses in Religion at Central.

Six Join Staff As Year Begins

With the start of the new semester, Indiana Central has added three resident professors to its staff. The new professors are Dr. John Gates, instructor in music history and piano, and Dr. Daniel Hartman, assistant professor of Education. Dr. Gates is a native of the State of Indiana, and was born in Indianapolis. He received his B.S. and M.A. from Butler University in 1935, and his Ph.D. from Florida State University in 1941. He is currently teaching courses in Musicology at Central.

Mr. Noble was born in Elkhart, Ind. He received his B.S. and M.A. from the University of Illinois in 1935 and 1937, respectively. He is currently teaching courses in Psychology at Central.

Mr. Vondrak was born in Chicago, Ill. He received his B.S. and M.A. from the University of Illinois in 1935 and 1937, respectively. He is currently teaching courses in Physics at Central.

GREYHOUNDS TO MEET ILLINI
IN HOMECOMING DUEL SATURDAY

Last year provided the first victory for the University of Chicago over Indiana Central since the two schools began competing in 1963. But this year Coach Ed Dwyer plans to bring the picture back in perspective with an ICC win when the Greyhounds take on the Fighting Illini before Homecoming crowd here this weekend.

"Last year was the first time they've beaten us," says Coach Dwyer, "but they are just getting out of our class (2,000 students)."

However, Mr. Dwyer, who stopped up to the post of head football coach for last year, is now a great deal more ambitious than he was last year. He and the team have been hard at work for the postgame.

"There is no where to go but up," is the cautious but optimistic outlook for the '67 season. In an attempt to improve on the discouraging results of last season, there has been a change in the offensive style. Coach Dwyer plans to throw a wide open style of attack with equal emphasis on passing and running. "This year we have a man who keeps all his programs may as well throw them away for "Big Eight" football," he says. "In the past we have played the fruit basket of positions and players.

The twenty-one lettermen lost from the Greyhound's squad are not to be a threat as they only lost three lettermen back for Coach George Strand's Chicago team. "We've got everybody back from last season," proclaims Strand proudly.

Thomas Young, a former high school All-Star, who last season set the school's rushing and total offense records, Junior quarterback Mike Izrail will again direct the offense, which Strand hopes to start with a bolstered passing game.

"That is all we know about them," complained Coach Dwyer. "Except for the information we've gotten together from last year's films, we are going into the game kind of blind." But no one is willing to write off a crew of running Greyhounds, even if they are blind.

SITTING IN CLASS WILL SEEM A LUXURY ...

And or Faultless?

Reading Gandhi was much like listening to a mother doing in and praising her child. The mother projects the child as a perfect human. He, to be my. He or she might respect her child for his actual achievements, but he or she would hardly dare to love him or her. The listener respect the child for the way in which his or her mother constantly ideals the child, for his or her utter innocence; the less admirable the child becomes in the listener's eye.

As the proud mother idolizes her child, Louis Fischer idolized Mahatma Gandhi. Although Fischer was either blind to Gandhi's vices, he wrote in his book, Gandhi, as presented by Fischer, was faultless. Almost divine. In fact, the reader may very well finish reading the biography of Gandhi, void of all his faults or vices, and come away convinced that he was perfect. Like the mother and the child, Fischer was either blind to Gandhi's faults or else he chose not to show them.

Mahatma Gandhi commands respect from any part of the history of India and the world. Persons should admire him for his work; the raising of the "untouchables" to a higher level in India's caste system; for his nonviolence, his asceticism, his faith, will-power, and ideals — the attributes and policies of any man. But, Gandhi was not perfect.

A biography of Gandhi, void of any vices, was impossible. There is no way in which one can write a biography of any man without mentioning his vices. For Louis Fischer to continual- ly try to force upon the readers the idea that Gandhi was perfect and great is not right. A person should be allowed to evaluate a man like Gandhi on facts written without the expression of one man's opinion.

Camera Eye Asks
"What is Man?"

Ileron Museum of Art, 110 E. 10th Street, opened one of its most recent exhibits on Sunday, Sept. 3. The Museum is available free of charge to students and interested public. "The World Exhibition of Photographic — What Is Man?" was organized through the cooperation of museums and galleries around the world and consists of 550 photographs submitted by 264 photographers representing 100 nations. Stern publications, which published the book, promote the prime organizer of this spectacular exhibit.

The exhibition demonstrates on this 125 anniversary of photography the expression of man's soul, as perceived by the camera's eye, not only in outside dimensions, but also in spiritual, physical, psychological, historic and religious interpretations. It is this power of the expression of photographs to be shown rather than a compilation of these photographs is the beauty of photographs of the world. In its exhibition the photographs show symbols of the world's cultures, as well as symbols of spiritual and religious expressions, often not captured by the camera fare. Indeed, in most cases, the camera would not by nature be able to capture the expression of man's soul, as perceived by the camera's eye.
