FULLBRIGHT SPEAKS AT PEACE RALLY

by Dr. Marshall Chambers

For three days a security guard was a member of the Reflector Staff to make some observations of the "lounges" for Peace Rally that was held in our gym, with Senator Fulbright as the speaker. I am sure of two things: I am not qualified to do such, and 2, what is written here is not to be interpreted as the college position. It is simply an observation.

Personally, I was greatly surprised by the number of people who showed up for the rally — a real cross section of humanity: young and old, rich and poor, well dressed and otherwise, students and anti-establishment. It would be my guess that there were around 4,000 people present. Senator Hartke made the introduction and referring to Senator Fulbright he said "here is a man who fears not to challenge the president, regardless of party affiliation." The speech that followed affirmed this statement.

It is no easy task to sum up what the Senator said, and some would undoubtedly do it much differently than I, but I saw it in his speech three major points. Again and again, the Senator referred to the foolishness of our ever getting involved in the first place, and that the President has rolled on the same unwise and shortsighted political advisors. Too much advise and counsel seems to be coming from the military. At one place in his speech he said, "I must admit that it makes as much sense to move into Cambodia as it did to go into Vietnam (a great applause followed here) and then he added "that made no sense at all." On more than one occasion, the administration has informed congress and the American people, that they had acted upon a "golden opportunity," but each "golden opportunity" has brought on greater loss of life, greater dollar costs, and deeper involvement. How do you teach a man to kill, destroy, and dehumanize people, and then turn right around and condemn, or try him, for killing (called murder in this case) civilians, who also throw hand grenades, etc.? This is my question, not the Senator's.

According to the Senator, "War has acquired an insane life all its own."

The Senator also pointed out in his opinion, the President has taken on powers that are not rightfully his. To be sure, the president has the responsibility to protect and defend our people, wherever they are, but does it take a half million men and billions of dollars to do this? He was not only critical of President Nixon at this point, but also of his predecessor, Mr. Johnson. Only the Congress has the power to declare war — and anyway you look at it, with a loss of over 40,000 lives, and over 300,000 wounded, this is war — one waged only on the approval of the President. Senator Fulbright, who is Chairman of the Foreign Relations Committee, indicated that they had met with the President's advisor relative to sending military supplies to Cambodia. All but one voted that this should not be done. Ne.

Bomb Threats Plague Central

A series of bomb threats has plagued Central in the past few days. The first threat was received Wednesday, April 22 and Staff members in Academic Hall.

The campus was claimed the bomb was set to explode at 9:00 A.M. Indianapolis police notified and a search of the building was made by officers and staff. No bomb was discovered and the building was not evacuated.

Other threats were received May 1 for Academic and Administrative Halls. The same procedure was followed with no discovery of explosives.

The campus has suffered frequent interruption of classes because of similar threats. No other than disruption of order, can be found for such acts.

Aspiring Poets to Meet

There will be a poetry workshop at 1:00 p.m., Thursday, May 14, conducted by Philip Appleman, professor of English at Indiana University. Professor Appleman is a noted poet and scholar. Among his many honors is the Christiaan Molery Award. His poems have appeared in such noted anthologies as Best Poems of 1972 and Untermyer's "American Her." The arrangements for Prof. Appleman's appearance here were made by Instructor, Elizabeth Streeter under the auspices of the Fine Arts Commission.

Prof. Appleman will not only discuss his own poetry, but will also give suggestions to aspiring poets who bring samples of their poetry to the workshop.

Editorial

Integrity is a word of tremendous weight. As students of a "Christian" institution, we have been continuously exposed to the necessity of employing integrity in our life style. Integrity is the quality of uprightness, honesty and sincerity. When we encounter a person who does not exhibit these traits, we may mistrust his intentions. In short, we lose respect for him.

Integrity is not only a trait of individuals but also of institutions. When an institution exhibits integrity we are confident of its character and respect its intentions.

In the past we have mistrusted its character, and have listened to its words. We lose respect for it.

An Institution is not a monolithic structure set in perpetual, unchangeable motion. When poor judgement on the part of an institution results in an act damaging to the institution as a whole and it is not admitted and a correction made, this is an act of integrity.

This institution has recently errored. This error has not been confessed. No action toward correction has been attempted. The loss of an outstanding faculty member may be one of the results of this institution's exhibition of poor judgment.

The integrity of this institution is in jeopardy.

Press Free from College

A land mark decision was announced by a Boston district court judge recently about the requirement for a college to grant editorial freedom to editors of the campus newspaper.

The case stemmed from an editorial by the adviser of the college newspaper The Cycle, which was published in words in an article by Elderidge Cleaver. The editor of the newspaper, John Annunzio, and the editorial board, was offered in the federal court against, Dr. Hammond, maintaining the constitutional rights of a free press were abridged by Hammond, and the college faculty advisory board to compel the dismissal of the first amendment was violated.

Last November, there was a threat that this would be the college on the same issue. It ended in the dismissal of Dr. Frederick A. Meier, met student demands demanding funds be spent on the constitution of the college newspaper. Another Cleaver was involved at Salem Alex.

The Pen and the Gavel

by Mike Shorn

For those who feel that Central Council has a "position of importance," there is a certain importance in the total activities of this Institution. It is interesting to note how our president feels to be my responsibilities and rights. When I was elected president, not king; therefore, I have no special powers or duties given to the president of the university. I am sure each student feels the interchanging complex of chain and its not being through a flock. But even smaller than "the needs of an individual," the present present paper's potential of ideas and plans being lost coming to mind. A thousand-person reason, much personal contact with the students seems necessary on the Central Council.

Most of the ideas of the Executive Board are still too much in the elementary stages of discussion at this time. There are, however, two immediate avenues open to the students in order to allow them to influence the organization of the next year. Since I am a member of my mobility and perception of Central Council, Advisory Board of five students for the next year. I am certain that the duties of my office and the formulation of my personal ideas. This is the reason that this paper is being written. I am sure that many people feel that the function of the advisory board is too difficult to perform. For this reason, I have been attending the meetings of the executive board for the past four months in order to attend the council meetings. The other reason for the formation of the 1970-71 council is to attend the council meetings. The other reason for the formation of the 1970-71 council is to attend the council meetings.

I will wait until the next edition of the Reflector to make any further statements about the politics of the university, my plans for the results of any communication with the proper administration.

Letter to Editor

I am an ICC student who does feel that Central Council was willing to do anything to prevent the war. We can not afford to be silent when innocent life is threatened.

I want to see massive world movements against the very object of war. I want to see a world movement against the very object of war. I want to see a world movement against the very object of war.

I have heard but one word, that the war is against the Vietamese people. The war is against the Vietamese people.

Yet, I have to hear but one word, that the war is against the Vietamese people. The war is against the Vietamese people.

I want to see massive world movements against the very object of war. I want to see a world movement against the very object of war. I want to see a world movement against the very object of war.

Hamlet Cast Prepares For Trip To Europe

Members of the Britian east of Hamlet have been busy lately making plans and preparations for their trip to England and Scotland in July. Recently, the entire group gathered in the office of Mr. Joe Joseph, who is Mr. Williams family physician. Dr. Joseph gave the group their small-pox vaccinations as his "contributions" to the east. Just before leaving on their trip they also had started again and will continue until the last week of June. All in all, it is a very exciting time for a group of very happy people!

NAME-DENIED

Jock Donald Co., name should have been included in the Deans list for first semester.

IN LOCO PARENTIS

Women Not Responsible: Lock-up Necessary

by Cathy Knecht

(Washington, D.C. — United States Senator Vance Hartke (D.) recently told Presidential Advisor for Young Americans participants that political leaders of today realize that much can be learned from the protests of the youth of this nation.

"Young Americans of this generation do not want promises, they want fulfillment. They hate war and they want peace. They are asking their political leaders for something better than we are now giving," he said.

The junior Indiana senator urged those students to take part in the process which can ultimately bring about that fulfillment.

"Young people sincerely want this country to recognize at last the ideals for which it was founded. This can be done if students make their views felt through a medium which elected officials pay heed — the vote," Hartke added.

Local voter registration drives often will not register college students because local organizations of both parties are concerned that the student voting bloc will upset local elections.

Students are urged to register to vote because the influencing of elections is a fundamental right of the individual voter.

Because of the recent political unrest, student registration drives will be mounted this spring and again in the fall by both political parties. Senate Hartke has urged students who face trouble registering at their school address to register instead during the summer.

A program of self-defense instruction instead of all that irrelevant, foolish stuff you have doing in physical education. My knowledge of badminton rules isn't going to save me from rape! Institute such a program now and do away with your puppy hours.

As long as you so enthusiastically support degraded "selves" for women's rights, you may well find your ability to control your living situation impaired. You have kept me from any preparation for my departure from my twenty-one years in womb-like educational institutions. In fact, you have undermined any confidence I might have had by supporting whole-heartedly the thought which says, "Women cannot take care of themselves." How long am I to be punished for a mere biological fact — my ability to get pregnant? If you were really concerned about the safety of your women students, you constantly protest that you would not be satisfied with your worthless, short-term welfare as women depend on our awakening you to the fact that self-defense, control of our bodies, is a unique right of women.

Hartke Encourages College Vote

WASHINGTON, D.C. — United States Senator Vance Hartke (D.) recently told Presidential Advisor for Young Americans participants that political leaders of today realize that much can be learned from the protests of the youth of this nation.

"Young Americans of this generation do not want promises, they want fulfillment. They hate war and they want peace. They are asking their political leaders for something better than we are now giving," he said.

The junior Indiana senator urged those students to take part in the process which can ultimately bring about that fulfillment.

Students are urged to register to vote because the influencing of elections is a fundamental right of the individual voter.

Because of the recent political unrest, student registration drives will be mounted this spring and again in the fall by both political parties. Senate Hartke has urged students who face trouble registering at their school address to register instead during the summer.

Grass Abuses Reported On Campus

Numerous reports have been received by this paper that there is an abusive use of grass on this campus. Personally, I do not object to enjoying the "green week" but I might offer a few suggestions:

1. When paraking, please remove shoes, etc. so that complete communication can be experienced.
2. Over-use tends to deplete the supply quickly.

3. Repeated uses in the same area are not noticed. Variation of routines most effective.

These suggestions are offered in an attempt to keep up appearances on this campus and prevent the place from going to pot. Remember, you wouldn't walk on poodles, so don't walk on the grass — please.

Pennsylvania Educator To Speak at Commencement

Dr. Frederick K. Miller, commissioner for higher education in the Pennsylvania Department of Education, will deliver the address at the 6th annual commencement of Indiana Central College on Sunday, June 7. The graduation ceremony will begin at 6 p.m. in the Physical Education Building.

The baccalaureate service will be at 11 a.m. in the same gymnasium. It is the 25th anniversary of the Indiana Central presidency. The campus program includes an address by Dr. Miller.

Statewide Committee To Introduce “Operation Cleanup”

In answer to the growing problem of pollution, Indiana will produce a month-long cleaning program beginning May 9 with Senator Homer E. Capehart as Chairman. The fifteen-member statewide committee includes such prominent people as Mayor Richard C. Whitcomb, cleaning equipment from every county will be brought to the mall of the State Office Building on May 9. "Thereafter," said Capehart, "in some 116 communities including Whitcomb and Mayor Joe Langer will lead a downtown parade before all the road-cleaning equipment will be scattered in the area of Indiana."

Capehart announced the "Operation Cleanup" program in a mood of national concern. "The environment is a basic problem that every community should face," he said.

The program is expected to be televised on June 11, with Whitcomb and Capehart appearing on the program. The program will feature local pollution problems, and the public will be encouraged to participate.

Charles E. Rector, president of Indiana University, has been a strong supporter of the "Operation Cleanup." He said, "We must do something about the pollution problem," and he added that the program will "provide an opportunity for citizens to participate in a meaningful way."
**Seven Backs Sign as Greyhound Gridders**

Dick Nyers, the new head football coach at Indian Central College, has announced the signing of grants-in-aid by seven high school senior boys, who will be freshmen backs on the Greyhound grid squad this fall.

They are Ralph Burns, West Central High School, Franklinville, Ind.; Terry Bushing, Carmel High School, Phil Evans, Franklin Community High School; Douglass Logg, Tipton High School; Oscar Gardner, Valley High School, Valley Station, Ky.; Jim Olsen, LaVille High School, Lakeville, Ind.; and Patrick J. McLeary, Indianapolis, Indiana.

Burns was a back for three years, during which time he played football, won the all-conference honorback, receiver for the last year, receiver of the year, and was on the All-County team. He also led the team in football blocking for four years and never missed a tackle.

Central Netters Prepare for Tournament

Preparation and practice is important in all sports and tennis is no exception. John BB and his Hounders are intent on developing at, practicing for, and putting in a time of 3:21.6. That time took first in the Little State meet.

Others on the team were freshman Larry Muselman, a 14-year-old from the 14-year-old from the high school team and is one of the finest players on the team, and Ernie Martin, a 14-year-old from the 14-year-old from the high school team. Paul is the one for this year and is steadily improving.

Looking at sprint competition, sophomores Joe Antenucci and freshman Don Stecker have given the Central opposition trouble this season. Antenucci feels that Antenucci is a man to watch in the sprinting in the ICC races and will definitely give the Hounds points in the 100 and 220. Joe has recorded a 10.3 in the 100 and a 25.4 in the 220 dashes for this season.

Stecker is from Brethren High School, and has proven to be a real asset to the team, and to the last sprinter. Although he has been hampered with injuries, his presence has been missed.

Sophomore Larry Scherba has been the only hurdle entry for the Hounds this year. He has some actions that are an asset with Martin's encouragement he's tanking both the highs and intermediates. Smith has also tried the hurdles.

Gary Romesier and Junior Dennis Walker look to be the strengths for the Hounds this season and have finished high in the mile and two-mile events. Walker has the record for the Central miles with a 2.15.5 and Romesier is expected to challenge that in the season's remains.

The sophomore has run a 4:53 two-mile in '70 and finished second in the ICC cross country encount

Greyhound Diamondmen Post 12 Wins, 13 Losses

It's been a rough season so far for the Greyhound baseball as the season got off to an early start. The team ended their season with a record of 12 wins and 17 losses. Despite the defense being the big problem for the young Hounds this year.

Hitting has come naturally for the team, but running the bases has been hard for Coach Bill Bright's team. "It's the defensive side. We've worked hard on fundamentals all season and the defensive aspect has been something we've been working on," said the coach early in the season.

Freshman pitchers are certainly doing their job for the squad this season as Don Jakobinski, Jeff McHenry, and Gary Judy have done fine work. "Our team is on the upswing. We're not doing bad on fundamentals all season and the defensive aspect has been something we've been working on," said the coach early in the season.

Veteran Bill Smock and Jim Hedges have also helped the Hounds out at the plate. "We've worked hard on fundamentals all season and the defensive aspect has been something we've been working on," said the coach early in the season.

Central Canoers Canoe In Contest

- Six teams of canoers from Indiana Central are preparing for the third annual Super Creek Canoe Race at Crawfordsville on April 18. On this rainy Sunday, 34 canoes entered the Mixed-Doubles Race. The team of Mike Ceci and Gail Medall placed 22nd, followed closely by Marlene Mullens and Don Stowe in 23rd. Mark Whitman and Mary Beth Brodhead came in 30th.

On Saturday 50 men's teams participated in the Men's Doubles Race. It raised two inches while parts of IC were Marlow Mullen andOLUMNS AND LEWIS have scored in the past, and their movement into Cambodia is expected to benefit the overall situation.

A real surprise for the linksmen was the Bluff Dwellers' win at the 1972 Central Canal Regatta. In the Mixed-Doubles category, the Bluff Dwellers defeated the Bluecoats,建立了 movements into Cambodia and the United States, which has been a major concern for the United Nations and other international actors.

The session closed its business by discussing the "falling" from what appeared to be the second floor of Wilmore. It is believed that a woman was thrown twenty-five feet in the air by the blast. The exact reason for the explosion is still under investigation by city police; however, it is known that the cause was gun powder. Whether the perpetrator was on campus or the boy found by him is undetermined as of yet.
