Religious Emphasis

Days—March 1-3

Our leader for Religious Emphasis Days next week will be Reverend Ray Armstrong, Campus Minister at Wesley Foundation, Ball State University. Ray’s home is in Indianapolis, where he graduated from Tech High School. In 1952 he graduated from I.C.C. with B.A. degree. From Dayton, Central he went to United Theological Seminary, Evangelism aiher Center. Appointments. may be available for counseling in room reference. The whole family is talking about the variety show, “All In The F—Faculty”—scheduled for grand opening and closing on Monday, February 25, 7:30 p.m.

S.O.S. SIGNALS

Dallas, Texas, is to be the scene for a hugh student convention to be held June 19-21, 1972. One hundred thousand college and high school students, faculty, laymen, pastors and military personnel are expected from all over the world. The name of the rally is EXPLO 72.

EXPLO 72, sponsored by Campus Crusade for Christ International, will be a week of challenge, inspiration, and intensive training for world-wide spiritual explosion. During the mornings, delegates will attend training sessions held all over the city of Dallas. There will also be optional seminars offered. The evening sessions in the Coliseum Bowl, which will be televised nationwide, will include reports from Christian leaders, and delegates will be challenged to spread the good news of Jesus Christ all over the world.

In addition to the training, inspiration, and fellowship, each person will be given the opportunity to apply what he has learned. But EXPLO 72 will not be an end in itself. Immediately following EXPLO, the second phase, OPERATION PENETRATION, will begin.

A BLOODY MESS

ICC’s first annual blood flood is being held in Schwitzer concourse next Thursday, March 2, 1972. Alpha Phi Omega and the community blood bank are sponsoring a campus blood drive from 1 to 4 p.m.

Many adults think of college students as long haired hippy freaks who don’t care about anything. This is one of those times when each of us can do something to help change this attitude. Many campus organizations have been contacted for club blood pledges. In addition, the area radio and television stations have been contacted to announce the drive to the community.

The donation is painless, except for filling out a simple questionnaire. There will be free orange juice and donuts for those who donate. The whole process will only take a few minutes.

Knowing that something that you can do will help someone else live will make this an experience you won’t want to miss. Everyone is invited to give.

Alpha Phi Omega, Mike Werling, Pres.

Honors Courses Announced

The honors committee has announced that two honors courses are among the possible choices for students about to pre-register for the first semester, 1972-73. They are:

1. MEN IN SOCIETY—honors course generally taken in the sophomore year, taught by Prof. Herrick. This course may be taken in substitution for one of the social studies courses required for the Liberal Arts core. The course is designed to acquaint students with ideas and problems in several social sciences in a broad survey approach. In a small class setting, the procedure of the course emphasizes student participation and interchange of ideas; more opportunity can be given than in the usual course setting for innovative approaches and special student interests.

2. MAN IN SEARCH OF MEANING—junior-senior honors course, taught by Prof. Casel. This course may be taken in substitution for one senior religion requirement in the Liberal Arts core or for Philosophical Problems II, or for the Classics course. In a small class setting, students engage in study and discussion of the challenges posed to modern man by technology, diversity in culture, and the problems of modern life; alternative understandings of man and his world are critically examined. There is wide latitude for special latent interests in projects that may be carried out in the course.

A fuller description of all five honors courses is given on pp. 1744 of the 1972 college catalog.

ICC Grad Named

Chief Federal Judge William E. Stockler has announced the appointment of Larry B. McClarty to the post of deputy clerk. McClarty, assigned to Judge Stockler’s court, is a graduate of Indiana Central College. He received his bachelor’s degree in education from I. year last year.

A teacher at Johnson County High School last year, he earlier taught three years at the Warren Township Metropolitan Scho District.

McClarty lives in Greenwood, Indiana.
Dear Dooley,

Recently I've become rather concerned about the professional and academic ability of a few of the instructors at this institution. Are professors, specially those on tenure, ever really evaluated?

Edward Evaluator

Dear Edward,

Your point is well taken, and many students have raised similar queries. Some instructors do seem to be liked; and yet, they manage to slip between the cracks of tenure. Students themselves are probably the best indicator of an instructor's success; their achievements do not always reflect the teacher's ability to stimulate and instruct.

Unfortunately, some educators just seem too easily misdirected. Some day, somehow, they will have to be held accountable for your and my time. Unfortunately, you will have to do the job of teacher.

We will all have to deal with the situation.

Perturbed Parker

Hard

Dear Parker,

I'm in a great mood this week! (Note from No.

This column is written one week in advance, so sometimes I have to advance my personality a work, so this isn't accurate. DON'T WORRY.

Good thing, I lost a ribbon this morning.

Cordially,

Hodgepodge

Cordially,
Utopia U?

GREEN BAY, WIS. — The cab made its way through the dirty dankly polluted college town. Talismans emitted a bad black smell in a city where that kind of black isn't beautiful.

And then the vehicle pulled to front of a puddle of dirty water near a slightly larger puddle of dirty water called Lake Michigan near a construction site near an environmental science building. I had arrived.

"I don't know," said the Green Bay cab driver. "It's just like any other university, I suppose."

At first glance it looks just like - any - other - university - I - suppose - with 2,500 students shoving their way to class, books under arms, girls under arms, long hair, short hair, linoleum floors, white cement walls, bulletin boards announcing the usual ban.

At second glance it looks just like any other university. And at third and fourth and fifth...

In fact, it's only until you find out what's going on there (and, more importantly, what isn't) that you discover it's not just like any other university.

It's the University of Wisconsin at Green Bay, its acronym being UWGB, the sound one emits upon getting a mouthful of smog, which is exactly one of the things this college is dedicated to remedy.

Dubbed "Survive U," "Ecology U" and the "University of Involvement," UWGB is all of the above. The entire school has been organized around the theme of environmental crisis. A lot of theme. A lot of crisis. It's the first of its kind. Structured with a unique semi-structure, it's the free school as avant-garde, complete with no degradable students who study the solution to pollution, the psychology of ecology as they bicycle and recycle their ways through four years of less and oriented education.

UWGB, all acronyms aside, is a breath of fresh air in an otherwise polluted academic environment. It opened its doors to students in 1969. And word has spread. Now, more than two years later, ecologically minded students from all over the country flock to this environmental mecca.

But the college itself is polluted with many undistinguished problems - an 80 per cent commuter campus, a minority housing crisis, student apathy (and apathy about the apathy), but certainly never a complaint about irrelevant Education. UWGB is anything but irrelevant - the answer to any activist's academic reform vision. If anything, it just might be too relevant.

A student selects an environmental problem that shows the center of his intellectual interests, according to the school catalog. The structure is based on environmental themes rather than standard disciplines. There are four colleges within the University: Environmental Sciences, Community Sciences, Human Biology and Creative Communications.

Curriculum includes such subjective subjects as "Visions of Man," "Ecosystems Analysis," "The Philosophy of Leisure," independent study programs that include community involvement and development - as well as the old standby like accounting and physics. But this university ties them all together.

"Frankly," says chancellor Frank Weidner, "we've tried to build an institution that says the pop-out from society isn't where you're going. There must be a feeling of social responsibility - relevance - in every area. Let's not pollute this university with things that lack meaning.

It is this man who sets the pace. Complete with a simple, folksy charm, Weidner weaves students into involvement like cows into an educational undertow. But sometimes, as they say, the pasture is greener on the other side. And most people UWGB is that greener slide. But for many UWGB students, their "pastures" are more gangrene.

"Do you sound bitter?" asked one bitter coed after she had listed several reasons why she hated the school from her big classes to the masses to her disdains for student apartments. "If there weren't any classes, I'd like it better."

But here are classes. And there are students who like it better.

One student who does like the school diagnosed student problems such as: "They come here expecting utopia. You know, this school is supposed to be a big, innovative thing - but it's not different, all that. Then they come here and they're disappointed that it's not Walden III. But they forget that they have as much a role in making it innovative as the staff does."

Or, as Karen Weidner - yes, the chancellor's student daughter - says: "People think it's all going to be there when they come. But it's not just going to come up to your doorstep and buzz.

Her father agrees.

"Things take a while to implement fully," Weidner said. "There is no such thing as a perfect human institution. And I hope we never have one because that means we've stopped growing and changing."

UWGB is growing and changing. But it isn't a perfect human institution. It's got its problems. But it also has potential, which few other institutions have. It's got potential for change but, more important, its students have the potential for changing the world.

At the end of the day, I hopped into a yellowed Cah and was on my way home. I thought I'd try again.

"I don't know much about it," this driver said. "But a college is a college. Isn't it?"

I turned around to notice a dark trail of combustion coming from the rear of his car.

It matters no more. You can laugh, to be sure. Your wounds are so deep. You can't harm any more. All that you can do is joke. Your reactions now are only refractions. Take another look: You'll see you've won. I'm dead. But don't get your hopes so high. Because I'm not alone. Too many are doing.

I think you'll lose. So poke while you may. I think you're going to lose.

It may take time.

For hate can be fun. But before you know it I think the world will have changed, and all of your teachings will have been lost. Then perhaps we can start again - Try to start that dream again. People will love merely for its own sake. I may be wrong, but I doubt it. I know you're wrong, with no doubt of it.

An Addicts' Psalm

"King Heroin is my shepherd. I shall always want..."

"These tragic words, part of a twisted rendition of the beloved 23rd Psalm, were discovered recently in Reidsville, North Carolina, in a closed car alongside a dead heroin addict. She was 23 years old.

"Her deed was ruled a suicide. A hookup with the car's exhaust had sent carbon monoxide fumes from a running motor into the vehicle. Here's the complete 'Psalm.'"

"King Heroin is my shepherd. I shall always want. He maketh me to lie down in the gutters. He leadeth me beside the troubled waters. He restoreth my soul. He leadeth me in the paths of wickedness. Yea, I shall walk through the valley of poverty and will fear no evil for thou, Heroin, are with me."

"Thy Needle and Capsule comfort me. Thou strippeth the table of groceries in the presence of my family. Thou robbeth my head of reason. "My cup of sorrow runneth over. Surely heroin addiction shall stalk the all the days of my life and I will dwell in the House of the Damned forever."

"And found in the car with the dead woman was this written message: "Jail didn't cure me. Nor did hospitalization help me for long. The doctor told my family it would have been better, and indeed kinder, if the person who got me hooked on dope had taken a gun and blown my brains out. And I wish to God he had. My God, how I wish it."

"You get better looking at union... with contact lenses!"
Hounds Maul Olivet

Indiana Central’s aroused Greyhounds ran away and hid from a stunned group of Olivet Tigers last Saturday in a record-setting outburst, especially around the game notching a seventeen point lead early in the second half, but only connected on half as many free tosses. ICC now stands 15-3 in the Missouri Valley Conference.

Marion Takes Indy

Marion College won the Indy college basketball “crown” by defeating the Indiana Central Greyhounds 85-90.

ICC Falls to Valpo

Indiana Central couldn’t handle an explosive Valparaiso offense last Saturday night and wound up on the short end of a 95-65 count when the smoke cleared.

Hounds Hold On To Nip Franklin

Indiana Central’s Greyhounds looked back over their shoulders just in time last Tuesday night and managed to be in front at the gun as they thwarted a last-ditch effort by Franklin’s Warhorses. It was a matter of rescuing a Greyhound who nearly did the Hounds in in the first game, Whitten led all scorers with 25, and Dave Williams had 17.
