Hartke To Address
Student Convention

Presidential hopeful Senator Vance Hartke of Indiana will be one of the Presidential aspirants to address delegates to the Indiana Student Political Convention.

Hartke will be speaking to representatives of more than 150,000 Indiana college students from throughout Indiana on April 22 at the Lafayette campus of Purdue University.

Chairman Pete Priceveldt announced that the April 22nd convention will convene for the purpose of hearing Presidential candidates, to participate in political workshops, and to draft a platform which represents Indiana students' beliefs. Pete added that it is hoped that this platform will influence male and female candidates toward the needs and views of the newly emancipated 18-year-old voters.

ICC Schedules Summer Session Classes

A variety of courses and schedules are being offered this summer at Indiana Central College.

Beginning May 1 and ending August 4, students will have a number of opportunities to enroll in a variety of classes.

Some of the course schedules available, ranging from one week to seven weeks are:

- Art courses will be offered during the day for one and two weeks throughout the summer.
- Science courses will be offered during the day for four and five weeks; June, July and August.
- Education and physical education courses will also be offered during the day for seven weeks beginning June 19.

During the evening, there will be two full seven week sessions.

Summer Session I runs May 1–June 14, and summer Session II runs June 19–August 4. A student may enroll in one or both sessions and earn up to seven hours in each session. A total of 43 separate offerings in fourteen different departments will be available.

Summer preregistration for all courses is in effect now. Prospective students should call the Summer Session office for counseling appointment.

Schedules are available upon request from the Summer Session office, 737-3011, Ext. 316.

'May In Mexico' Tour Set For Take-off

The Delta jet is all but ready for take-off on April 25 at 9:05 a.m. for Houston and Mexico City. The participants, who will be going on the tour as their semester course this year, gathered on Saturday, Mar. 18 for briefing by Professors Moulton and Toms, tour leaders.

Final plans were reviewed; suggestions were made for packing bags, do’s-and-don’ts, what to see, wear and eat. An enthusiastic group of student participants are looking forward to the trip in a mood of “Fiesta.”

The highlights of the planned events were outlined, including a bull fight and a jai-alai match. Final checking was made to determine that everyone had his shots and had his documents in order.

There are still a few additional spaces available for the flight and tour of Mexico but the deadline for this is Monday Mar. 27 because of plane reservations requirements. Arrangement for being included can be made with Professor Moulton, but no later than Monday Mar. 27.

Participants, divided about half-and-half between those taking the tour course for Spanish credit and those taking it for history credit, include:

CONVOCATIONS

The Convocation Committee is anxious to improve the quality of convocation programs. You can be helpful at this point. If you or your organization desires a convocation for the school year of 1972-73, stop in at the office of the Director of Church Relations and pick up a request form. Your request will be acted upon by the Convocation Committee, after which you will be notified of the date assigned.

Wednesday, March 29, TeAta (Indian).
Friday, March 31, Drama Dept.
Wednesday, April 12, Rev. Oren Moore (tentative).
Friday, April 14, Drama Dept.

EASTER VACATION SCHEDULE

March 30—Easter recess begins after evening classes
March 31—Dormitories close at 9:00 a.m., Administrative offices close at 12:00 noon
April 9—Dormitories re-open at noon
April 19—Classes resume
Dear Friends,

A lot of things have happened lately which set me to thinking a lot. I wanted to tell you something, but I didn't know how to put it... till now.

When I came here, I came into contact with a certain fellow. Since something, but I didn't know how to put it... till MW.

But do you know that "wild-looking, agnostic Yes. I feel... that this would could

VOLUNTEERS NEEDED

There is a volunteer job tailored to individual interests. Volunteer opportunities with pre-school children, or as teaching or reading aides in public schools are especially needed for daytime assignments.

Art Enthusiast

As a true connoisseur of graffiti, you can assure me that these are the best job openings in the world. We have positions with the many positions on the horizon and in the future. They are being made to encourage freshness and variety of style and also to keep the writing and art work up to date.

Dear Dooley

Now that we have a new security system here at ICC, I've been wondering what's happening in the shack in front of my house. That's why I'm getting tired of having people ask me whether it's a man's or a woman's outback.

Dear Saver,

One of the few questions I know the answer to your question. I've seen some rumors about that 50 cent discount. That's why I'm asking you to look into it under it for use in emergencies, but these are probably only wild surmises. It is more probable that investigative work by the Physics Department and used as a control tower by the University to launch their first rocket sometime in 1959.

Dear Dooley

I'm outraged! Someone habitually harasses me unmercifully. I'm thinking about filing a complaint. They should be made to realize that not only is such writing a new expanding art form, but it is an important means of communication between students as well. (Moreover, because of the thoughtless erasure of a simple message, I miss an important appointment lost Tuesday evening.)

Letters to The Editor

To the editor,

All too frequently, with no one else in sight I was passing along the street, keeping in the object of my greeting and smile, I have been either ignored or stared at with a look that seemed to say: "Who does he think he is to speak to me without a formal introduction!"

While not only those who travel our country's corridors and campuses path, but also of the many I "met" in the several educational institutions with which I have been associated as student, supervisor, or instructor.

The following authorless item seems to tell and sell well the values of the smile. As one of the currently popular TV commercials suggests, don't you think we might properly and helpfully say the interests of close college fellowship: "Try it; you'll like it!"

Sincerely,

Mr. Doublash
Director Student Services, Evening Division

WHAT IS IT?

It costs nothing, but creates much.

It enriches those who receive without impoverishing those who give.

It happens in a flash and the memory of it lasts forever.

None are so rich who can get along without it, and none so poor but are richer for its benefits.

If it creates happiness in the home, fosters good will in a business, and is the counterpoint of a friendship.

It is rest to the weary, daylight to the discouraged, sunshine to the sad, and Nature's universal antidote for trouble.

Yet it cannot be bought, begged, borrowed or stolen, for it is something that is not earthly good to anybody till it is given away.

What is it? IT'S A SMILE!!!

The Curse of Mistrust

By EDWYN D. CANHAM

Not the least of the problems of the western world, and of the United States in particular, is that many people are paying too much attention to the object of my greeting and smile, I have been either ignored or stared at with a look that seemed to say: "Who does he think he is to speak to me without a formal introduction!"

While not only those who travel our country's corridors and campuses path, but also of the many I "met" in the several educational institutions with which I have been associated as student, supervisor, or instructor.

The Wallace Win

By John Sarno

News that made my stomach turn hit me right in the face last Wednesday when I flipped on the television for a glance at the Final Report. It was news of the results of the presidential primary just completed in the state of Florida. The news seemed to stir up something in me; I'm not sure what. It was as if something startled me and I decided to write about it.

Friday night eight o'clock. Hundreds of people slumped into plastic bump-up-back chairs in a hotel ballroom and listened to a woman speak. The woman was a mystery to me. I didn't know her name or what she was saying. But when she finished, I knew I had to see her again.

She crosses her legs. What else is there to say? "Bill Hill..."

"Yes..."

"I have an injury...I know how you got it...in your upper back...see a new doctor..."

"How did he know?"

"Buffy...I see a matter of a woman...I see a bullet hole through her head..."

Palma up, tension incredible. Nobody moves, nobody breathes, and God forbids, nobody crosses their legs."

"I know who did it...see me tomorrow."

Kahuna time. "You're going to be involved in a rock festival in June or July...aren't you?!"

"So...no...yes..." "It's going to be another Woodstock...but don't take the first two sites...I see nothing but legal problems...but it will be successful...I put a Kahuna on you."

In union: smile. Kahuna equals good luck. We should all have such good luck...

...a man rises upon his name called. "Yes?"

"I see an accident...an automobile accident...in a Blue Volkswagen...tonight."

"I don't have a blue Volkswagen."

"I still see it..."

"My daughter's boy friend has a blue Volkswagen."

And everyone GASPS and GRUNTS and GOES WOW and twenty-four hours later little Dr. Kahuna says to the reporters. The family's eyes gleam: "He's real or not—because he's plopped into these peoples' minds life-long lists of important cares about yourself, take control of your life, you are the most important person in the world. I know."

"Dr. Richard Huntington doesn't care if they think he's real. He only cares if they think they're real. Which is much harder on a Friday night eight o'clock for hundreds of people dumped into plastic bump-up-back chairs to believe.

Yes, there are a lot of good reasons for women to quit smoking.

Find yours.

( ) That "Smoke Pretty" ad makes meurious. Whoever made that up knows where the money is—fewer women than men are quitting. But they won't get rich over my head and I don't want to be teacher. How can I discourge kids from smoking when I smoke?"

( ) I know my father's been trying to quit. How can he with me still puffing away?"

( ) I want to wake up feeling fresh and clean again. I've had it with acne and pimples over the years."

( ) The thing that appeals to me most is: If you quit for good, in most cases it can be as easy as if you never smoked.

( ) Somewhere in the back of my head I've been nursing the illusion that smoking is only dangerous for men. I've just seen the latest statistics. The risk for women smokers is more than 20% higher than for women who don't. We've come a long way baby, but I'm not going any further.

Now all you need is help and encouragement. Send a postcard to Women and Smoking, Rockville, Md. 20852. And we'll send you some free booklets to help and encourage you.

Spartans Reign

Connersville’s Spartans did their nickname justice last Saturday with a determined burst of energy that carried them into the surprised Gary West powerhouse and on to the top of the high school basketball world.

Standing off an inspired Jeffersonville aggregation in a doubtful two-outcome victory in the afternoon; it appeared that Coach Myron Dickerson’s crew would be no match for the bonny Cougars in the nightcap, who had fairly waltzed past Anderson Madison Heights in the opening matinee game. Fate, however had fairly waltzed past Anderson Madison Heights in the evening, and the Cougars were able to spend the better part of the evening relishing the foul line, where they bowed a tournament record 32 out of 47 attempts.

The Cougars recklessness, coupled with poor shooting and a virtual absence of coaching enabled them to lose the big one to a team that was inferior physically but far superior discipline-wise.

Standouts for Dickerson’s iron-man saved Larry Miller, Gerald Thomas, and Radar Wilkes, who combined for 36 of the teams 79 points. Best player of the ‘ bunch, though, has to be Phil Cox, who made ample contributions in the finals, although not showing as much as he did in the opener.

The Reflector’s first annual all-tournament team includes Cox and Miller of Connersville, Elkhart Clark of Gary West; Bob Windham of Jeffersonville, an Al Fleming of Michigan City. The second team includes Rick Thallia of Richmond, Larry Homan of Jeffersonville, Guy Oplander of Center Grove, Jim Harvey of Gary West, and Bob Wilkerson of Anderson Madison Heights.

BRUINS To Make A Run At Six

By John Sarno

UCLA’S all-powerful Bruins will make a run at an unprecedented sixth straight national title next weekend, and there are few who think they’ll come away empty-handed.

Facing West Virginia Saturday in the Far West regional finals, the “Waltz Gang” figured to take it from there and after winning the opener, 110-86, from East Lansing, received a head start on the visitors from the three other regional sites. The Waltz of whom I am speaking is a Waltz with a face of wood, a Waltz, which will make the imperturbable John Wooden all wooden the more so. Wooden is rarely upset, and with his team always having the look of flawlessness proteges eight to sweep NCAA championships in the last nine years. From Goodrich to Kareem, the Bruins will awash my memory.

UCLA Squads have outclassed their competitors in a fashion never before seen in a major sport.

There will however be several squads not all that willing to concede the point. Long Beach, an arch rival who is extremely dangerous will send forth All-America Ed Ratliff and troops in an effort to make the finals. Midwest finalist Louisville will send Southern California might very well get a crack at all the marbles. First they must beat a surprising Kansas State ballclub which keeps expecting to lose but can’t quite get the job done. Louisville is led by a veritable Indiana boy by the name of Jim Proctor. The Broad Hoosiers are on the basis of his offensive prowess, but last Thursday night they were in a jam, the Bruins top men, in 29 more points and made him take a bundle of shots just to rack up that many.

In the most recent Arkansas- Kentucky Wildcats erupted past slumbering Marquette and Florida States running gumin’s Seminoles streaked by hardened Minnesota in two sur-

TENNIS - 1972

By DAVE ZEOLAN

This year’s spring tennis team is made up of ten men, with only two being returning lettermen. There are no seniors on the squad, thus making the tennis picture very hopeful for the future. The team leadership, according to coach Weerdahl, will have to be provided by junior John James, and sophomore Mike Wilks.

The rest of the squad consists of: D.J. Hines, a junior; Fred Boger, Dean Felker, sophomores; and Lloyd Burke, Mark Freinead, Richard Kroll, Doug Land, William White, all freshmen.

The toughest teams in the conference are Indiana, Indiana State, Ball State, Butler, and Valparaiso, according to Weerdahl.

Guaranteed Jobs, Not Welfare

Each month, the newest unemployment figures indicate a gloom to an already dark economic picture.

The latest figures show that $5,470,000 Americans are unemployed—a figure which may go even higher if it included those who have not been able to find work and therefore have stopped looking. The job situation is so grim the workers in which careers can take pride in their accomplishments.

Big business and blue机械-unemployed for socially-usable and meaningful work, can enhance the moral fiber of the nation and stabilize and invigorate the economy. Because the government need not be profit-motivated, it can weigh the availability of unused manpower against the needs of purer air and water, better schools and medical care, more livable cities, safer streets, better care of the aged, better care of the insane, and other services which can be cost of by government.

Thus the problem of unemployment has been a tough one to solve. For the past 25 years, it was assumed that the worker was either to reduce taxes or to increase "government" spending. Neither of the approaches has worked. The result was either higher unemployment or higher prices.

My plan means the realization of a commitment Congress made more than 25 years ago when it set a national goal "to promote maximum employment, production, and pur-

Looking For A Summer Job?

ENGLAND—Fun farm jobs available at international student farm camps. Work and live with students from all around the world. Room and board usually provided. Pay usually on a weekly or daily basis (according to how much fruit you pick). No set working hours and nearby beaches are added bonus.

SPAIN, ITALY AND GERMANY—Direct selling jobs selling English bone china and French crystal are available in these countries. All on the job training in Germany, assignment to other countries later. All work in English experience commissions only paid and for the past two years students have averaged about $400-$400 per month.

The above temporary paying jobs in Europe are given on a first come, first served basis. Applicants of all kinds of jobs are immediately available, applications should be submitted forth-with a generous amount of money is collected to allow the necessary working papers and work permits. Any student may obtain application forms, job lists and descriptions, and the necessary travel information by sending a name, address, educational institution and S.O.S. (for addressing: handprinted weeks) to a trip in Europe by sending their name, address, educational institution and $1 for (at addressing: handprinted weeks) to

FRANCE—Factory jobs. Good wages, relatively short hours and shift work allows time to travel around Paris, Amsterdam and many other European byelites. Grape picking work available during late summer months in wine regions. Wages, free room and board, and free mondays. Send for Camp counseling and child care jobs available to all students. Wages, free room and board, and free mondays. Send for Camp counseling and child care jobs available to all students.

GERMANY—Resort, hotel, restaurant, factory, farm, hospital, forestry and construction jobs available throughout the year. Good wages, free room and board and provided with most jobs. While the jobs are available immediately, allow for work permit and other necessary papers.
